Roll-in Solid Door Freezer

Reach-In Top Mount
 Premiere Pro Series

Model : PRO-26F-RI

FEATURES & BENEFITS

- **Self-cleaning condenser device** Only at Turbo Air
 The accumulation of dust in the condenser causes the failure or breakdown of refrigerators. Refrigerators run normally until they reach a certain level of accumulation. At some point, when they are over the limit, their performance drops quickly resulting in damage to, or disposal of the stored products in refrigerators. The self-cleaning condenser device keeps the condenser clean and prevents system failure by automatically brushing daily.
- **Digital temperature control & monitor system**

 - Keep food products safe by maintaining constant temperatures.
 - Alarms that sound when doors are not sealed shut; protect against food spoilage that originate from cold air leaks.
 - Digital display allows for easy monitoring.
 - Programs interpret the condition of refrigeration systems by self-diagnosis.
 - Smart fuzzy defrost system.
 - Automatic evaporator fan motor delays.
- **All stainless steel cabinet construction**
 The Turbo Air Premiere Pro model boasts all stainless steel interior and exterior (galvanized steel top, bottom and back). It guarantees the utmost in cleanliness and long product life. The Premiere Pro model can add a touch of style to the most refined setting.
- **Hot gas condensate system** Only Turbo Air models
 Through Turbo Air's creative innovation, the condensate system surfaces have been specially treated to resist corrosion. This not only increases efficiency without the risk of refrigerant leakage from corrosion, but thoroughly prevents the overflow of condensate water.
- **Cold air distribution system**
- **Door pressure release device**
- **Efficient refrigeration system**
 Premiere Pro's solid door freezers are designed with oversized and balanced (CFC Free R-404A) refrigeration systems. These include efficient evaporators and condensers for faster freezing and greater efficiency.
- **High-density polyurethane insulation**
 The entire cabinet structure and solid doors are foamed-in-place using high density, CFC free polyurethane insulation.
- **LED interior lighting**
- **Top mount compressor**
- **Freezer holds -10°F ~ 0°F for the best in frozen food preservation**

**Self-Cleaning
 Condenser**
