

# Automatic Rinse Aid

## Concentrated Rinse & Drying Agent

Rinse fluid and drying agent for use in automatic dishwashing systems. Eliminates water spotting and streaking from glasses, dishes, stemware, pots/pans, and utensils. Works well in all hard and soft water conditions and water temperatures. Speeds drying and reduces the need for hand drying. Spot-free rinsing. Ideal for use in conveyor, flight type, single rack, and undercounter dishmachines. Excellent performance and results in automatic pan washing machines.

### DIRECTIONS

Read the entire label and SDS for proper use, handling and storage before using this product.

#### Injectors:

1. Add directly to your rinse injector for automatic injection into the rinse water.
2. Adjust concentration control for desired level.

#### Hand application:

1. Add 1 oz. per 25 gallons of recirculating rinse water tank.
2. Dip cleaned glasses or dishes into this solution.
3. Remove and allow to drain dry. No toweling is necessary.

#### Silverware:

1. Add ¼ oz. per 10 gallons of water in your rinsing tank.
2. Dip cleaned silverware into this solution.
3. Remove and allow to drain dry.  
No toweling is necessary.
