

At-Eze

Heavy Duty Oven & Grill Cleaner

Heavy duty alkaline foaming cleaner for ovens and grills. Aerosol foam sprays on evenly and clings without running to vertical surfaces and racking. Soils are easily and thoroughly removed. Foam clings to vertical surfaces including wire racks and trays for more effective cleaning in less time and with less labor. Solid pin-point spray accuracy penetrates tough to reach areas.

DIRECTIONS

Read the entire label and SDS for proper use, handling and storage before using this product.

Do not use on aluminum, copper, chrome, coppertone or other soft metals. May be harmful to plastic and painted surfaces.

1. Shake can before using.
2. Use on empty oven, either cold or preheated to 200°F and turned off. TURN OFF PILOT LIGHT and/or ELECTRIC SWITCH.
3. Hold can upright and point spray button away from face. SHAKE WELL, then spray inside of oven from a distance of 8 to 12 inches, giving it an even coating.
4. Spray top and bottom of oven first then spray remaining oven surfaces and allow to stand about 30 minutes. (May be left on overnight with oven door closed.)
 5. Wipe oven clean with damp cloth, sponge, or paper towel. Spots that are difficult to remove should be retreated and cleaned with a scouring pad. Rinse with potable water.
 6. When clean, reignite pilot light, or turn on electric switch, and heat oven to 400°F for 10 minutes before using with food again.

FAST FACTS

- Foam clings to vertical surfaces including wire racks and trays
- Quickly loosens and removes heavy baked-on soils
- Convenient aerosol for fast and effective cleaning
- Pin-point spray accuracy penetrates hard to reach areas
