A member of the performance faculty of Colorado College, violinist Jeri Jorgensen will perform in Summit County this weekend. "Love is ... a Work of Art" Valentine's Day Concert is presented by Summit Music and Arts and will bring her as well as pianist Cullan Bryant to

Colorado Mountain College in Breckenridge. The program includes Sonata No.6 in A, Op. 30 No.1 by

Ludwig van Beethoven; Sonata, Op. 11 No. 2 by Paul Hindemith; and Sonata in E-flat, Op. 18 by Richard Strauss. Jorgensen holds bachelor of music degrees from the Eastman School of Music and the Juilliard School as well as a master of music degree from Juilliard. She was first violinist of the Da Vinci Quartet from 1980 to 2004, as well as a finalist in the Naumburg Chamber Music Competition.

Summit Daily News: Where do you draw your inspiration from when it comes to your music?

Jeri Jorgensen: Inspiration comes from the music itself.

performer, educator and mentor to young people

SDN: What advice would you give to aspiring musicians?

JJ: Practice. Look for meaning in everything you play. Listen to recordings, go to concerts. Don't be competitive. Make friends with your peers, do projects together, help each other.

SDN: What can people expect from the concert next week?

JJ: We are playing pieces from three different musical style periods Classical, 20th Century and Romantic. You can expect to have a journey through changing landscapes of sound, character and emotion.

SDN: What are you most looking forward to with the concert?

JJ: Creating a musical interpretation with my wonderful artistic partner, the incomparable pianist Cullan Bryant.

everyone, whether players are beginners or experts, Davis said. Local high school golfers will sometimes come in during the morning hours to practice, and there is already a strong following of local golfers that come in to play once or twice a week.

"A lot of golf simulators aren't designed to accommodate very skilled golfers," he said. "This golf simulator is the same one that Jordan Spieth has in his house. ... We have 93 different world-famous courses, many of which are on the PGA Tour schedule."

The simulator provides state-of-the-art tracking — club head speed, ball speed, spin rates, trajectory and loft.

For the avid golfers, Davis said, they can utilize this system to get better, and, for beginner golfers, it's a tool to learn how to play golf — but not be so intimidated like being on a real golf course.

"The worst parts about golf are that it's expensive, takes too long, it's intimidating and it's uptight," he said. "The simulator takes away all four of those and makes it for everybody."
