Course Description

The goal of this course is to provide participants with an introductory knowledge of Google Drive applications, strategies and best practices for making use of them in the classroom, and an awareness of the potential benefits and challenges of implementation. Participants will gain experience with Google Docs, Slides, Forms, and Sheets, as well as an exposure to other applications available through Google Drive. They will also explore ways to optimize these tools to meet instructional objectives and improve the overall student experience by eliminating obstacles that prevent some students from succeeding.

Objectives

As a result of this course, participants will:

- Identify the key features and functions of Google Drive applications.
- Assess the potential usefulness of Google Drive applications in their classrooms.
- Create classroom tools, resources, and assessments that effectively utilize Google Drive applications.
- Predict the potential challenges and benefits of implementing Google Drive applications.
- Create a plan for the effective implementation of Google Drive applications into their classrooms.
