[1] These default keyboard shortcuts are global and operate regardless of which program you are using. They can be changed in player properties. All global keyboard shortcuts are available in both Normal and Compact View.

[2] No default shortcuts are assigned for these functions. If required, please set them in player properties.

[3] Play speed controls are not available when Playing At End.

[4] The keyboard shortcuts for channel selection operate differently to the mouse and are designed for transcript typists to make voice isolation quicker.
