

## Product information

# VELUX Additional bottom hung pine vertical window element VFE

### Product description

- High quality natural pinewood coated with impregnation and layers of water-based acrylic white paint or clear lacquer
- Bottom-hung sash
- Inwards opening/tilting sash
- Handle on the top sash
- For installation in the wall below a VELUX roof window
- Maintenance-free exterior covers

### Roof pitch

- For vertical installation below a VELUX roof window installed in a roof pitch between 15° and 55°

### Materials

- Laminated pinewood
- Glass, toughened outer glass / laminated inner glass
- Lacquered aluminium, copper or zinc

**Lining measurements**

| Size | Width (mm) |
|------|------------|
| MK-- | 725        |
| PK-- | 887        |
| SK-- | 1085       |
| UK-- | 1285       |

| Size | Height (mm) |
|------|-------------|
| --31 | 564         |
| --35 | 918         |
| --36 | 1118        |
| --38 | 1338        |

**Vertical window element VFE**

- is installed vertically - directly below a VELUX roof window
- opens/tilts inwards
- features insulating glass unit with safety glass
- can be secured in ventilation position with sash approx 155 mm open

Combining a roof window and a vertical window element ensures

- even more daylight
- a great view – when standing and when seated

## Glazing features

|  |   | --70 | --68 | --66 | --62 |
|--|---|------|------|------|------|
|  | <b>Heat insulation</b><br>Low energy glazing provides reduced heat loss through the window and enhanced indoor comfort.   | •    | ••   | •••  | •••  |
|  | <b>Solar gain</b><br>In the wintertime, the heat from the sun entering through the windows is a usable solar gain.  | •••  | ••   | ••   | ••   |
|  | <b>Solar protection</b><br>In warm climates and in rooms with large window areas, a sun protective coating provides a better indoor climate during summer periods. Alternatively, exterior sunscreening can be installed.                                   |      |      |      |      |
|  | <b>Sound insulation</b><br>A combination of laminated glass and optimal glass thickness provides better sound insulation. Frame/sash construction and gaskets are equally important.  | ••   | ••   | •••  | •••  |
|  | <b>Security</b><br>Thicker laminated inner glass pane designed to increase resistance to manual attack (burglary).  | •    | •    | •    | •    |
|  | <b>Safety</b><br>Laminated inner glass is designed to hold the fragments together if the glass breaks. We recommend that you consider using glass units with laminated glass on the inside for windows placed above areas where people sleep, play or work. | ✓    | ✓    | ✓    | ✓    |
|  | <b>Outside strength</b><br>Toughened outer glass pane makes your glazing more resistant to hail, heavy wind and snow loads.   | ✓    | ✓    | ✓    | ✓    |
|  | <b>Delayed fading of materials</b><br>Inner laminated glass protects materials behind the glass against UV radiation and therefore delays fading of the materials.  | ✓    | ✓    | ✓    | ✓    |
|  | <b>Rain noise reduction</b><br>The combination of laminated glass and extra thick glass helps provide a significant, audible reduction of rainfall sound. Frame/sash construction and gaskets are equally important.  | ✓    | ✓    | ✓    | ✓    |
|  | <b>Easy-to-clean</b><br>The easy-to-clean coating minimises the cleaning frequency of the outer glass pane and gives you a clearer view in case of rain.  |      |      | ✓    |      |
|  | <b>Anti-dew</b><br>The anti-dew coating significantly reduces the days with dew on the outer glass pane and thus gives you a clear view.  |      |      | ✓    | ✓    |

• Good   •• Better   ••• Best   ✓ Feature included in glazing variant

**Visible features**

**1 Data plate**

- window type, size and variant code
- CE marking
- production code
- QR code

**2 Covers**

- lacquered aluminium

**3 Brackets for accessories**

- plastic
- colour: white/grey

**4 Laminated glass**

Laminated inner glass on all variants for personal safety

**5 Handle**

- anodised aluminium

**6 Insulated top cover**

- soft foam
- colour: grey

## Cleaning and maintenance

To clean the outer pane from the inside, open and tilt the window inwards. For cleaning, the sash can be opened approx 45°. Special tool supplied with the window.

VELUX repair and maintenance kits are available.

## Exterior covers

| Material                        | NCS standard colour | RAL nearest standard colour |
|---------------------------------|---------------------|-----------------------------|
| Lacquered aluminium (-0--) grey | S 7500-N            | 7043                        |
| Copper (-1--)                   | -                   | -                           |
| Titanium zinc (-3--)            | -                   | -                           |

Special colour requests, please contact enquiries@velux.co.uk

## Interior finish

|               |   |
|---------------|---|
| White paint   | Impregnation and layers of water-based acrylic lacquer and paint, NCS standard colour: S 0500-N, nearest RAL standard colour: 9003. |
| Clear lacquer | Impregnation and layers of water-based acrylic lacquer  |

Special colour requests, please contact enquiries@velux.co.uk

## Flashings and installation products

Flashings for the complete installation:

- EF- for single installation
- EF- for twin installation
- EF- for combi installation

Available for standard and recessed installation

Installation products for the roof window above VFE:

- Installation set BDX 20-- (incl BFX)
- Underfelt collar BFX 10-- including transverse drainage gutter
- Vapour barrier collar BBX 0000

Linings for the complete installation:

- Linings LS- + LVI (incl BBX)

## Note

We reserve the right to make technical changes.
