

# Pisces Crystal Guide

Pisceans are known to be compassionate, artistic, intuitive, gentle, wise and musical but can also be fearful and overly trusting

- 1. Amethyst** - used to enhance intelligence and artisticness, stimulating the third eye, crown and etheric chakras to enhance perception
- 2. Clear Quartz** - harmonises the chakras, heals and also amplifies energy so you will have the best health and energy to power your artistic mind
- 3. Bloodstone** - provides strength and stamina to the body and instills courage and self confidence to be true to one's heart and compassionate. It can provide support to persevere in difficult situations and aid in making difficult decisions
- 4. Aquamarine** - helps you to release any built up emotional baggage that you have been carrying, and encourages you to embrace change.
- 5. Fluorite** - cleanses the aura of those who keep it near or wear it. It helps Piscean's brains, so they can concentrate, balancing the positive and negative relationships of the mind
