

F-SERIES

PET NAT 2018

FRUIT SELECTION

Grapes for 2018 F-Series Pet Nat came from two sites: Pinot Noir (55%) from the Estate and Chardonnay (45%) from the Two Ponds vineyard in Grovetown

WINEMAKING

Fruit was pressed (no skin contact for the Pinot Noir) and the resultant juices blended. Fermentation was allowed to start spontaneously, and the wine bottled once the residual sugar had reduced to approximately 16 g/l to allow for some further fermentation in bottle.

WHEN SERVING

Served Chilled. When opening the PET NAT may over flow, so have a glass at the ready!
