Commander Traffic Barrel with Reflective Tape and Tire Ring Base Option

Barrel Reflective Tape Options:

Our barrels come with multiple reflective tape options.

	Tape Type	Nighttime Visibility
	No Tape	NA
	Engineer Grade	500 ft
	High Intensity Prismatic	1000 ft
	Diamond Grade	1500 ft

Custom Stenciling and Molding

Custom stenciling and molding can prevent theft of traffic barrels or help identify and organize them. They can also be great for marketing and give your barrels a professional look.

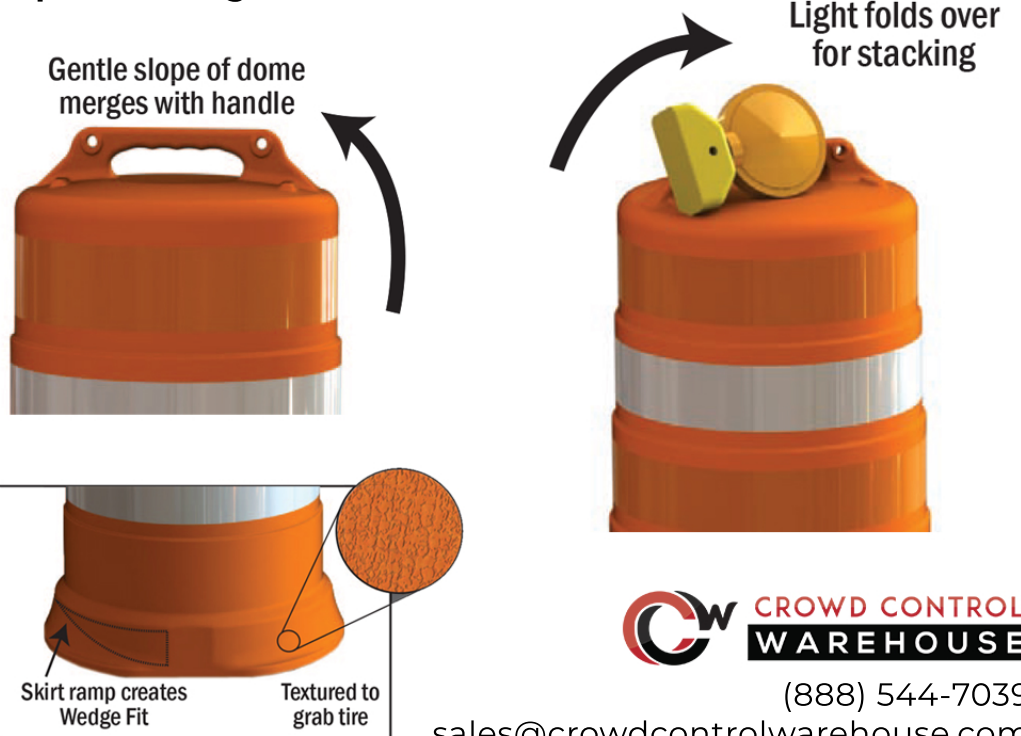

MUTCD COMPLIANT, NCHRP Crash Test Rating 350

Our channelizing barrels are tested and assured to meet or exceed standards set by the Federal Highway Administration. These barrels meet and exceed MUTCD standards with a NCHRP crash test rating of 350.

Material Options

Our barrels are designed for both superior rebound-ability and durability. Select either **High Density Polyethylene (HDPE)** or **Low Density Polyethylene (LDPE)**.
