

Wall mount for Retractable Belt Barriers

Wall Mount Retractable Belt Barriers keep your work space safe by restricting access to off-limits areas like warehouse aisles, loading bays, and other employment-only zones. By mounting your retractable belt barrier directly onto the wall, you achieve optimal space efficiency and versatility. Conveniently connect the belt to a traditional stanchion or another compatible wall receiver. Then, when it's time to put the barrier away, the belt brake technology allows slow, safe belt retraction, and the protective casing allows you to keep your wall mount in place where it's ready for its next use.

Features

- High strength, tightly woven 2" wide belts: span from 10' to 65' available in a variety of colors.
- Patent pending braking system: creates the safest post on the market.
- Universal belt clip: allows integration with many other manufacturers' units with slide-action lock..
- Built-in sign attachment: no costly adapters.
- Weather-Protection: posts can be modified for outdoor use.

Our wall mount retractable belt barriers are designed with a slow retracting belt system for smooth belt retraction and no snapback.
