Risk of electric shock. Disconnect power before servicing or installing fixture.

WARNING

Risk of injury or damage. Fixture will fall if not installed properly. Follow installation instructions

WARNING

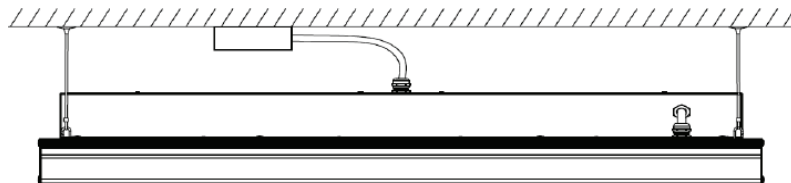

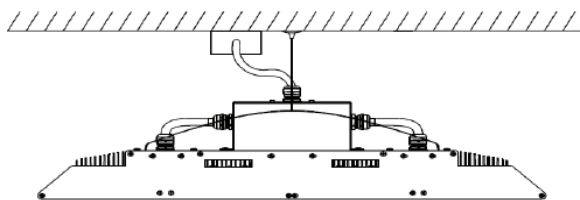

Risk of injury. Wear safety glasses and gloves during installation and servicing. Allow ample time to cool before handling.

IMPORTANT SAFETY INSTRUCTIONS

- Read all installation instructions before installing. It is important to save these instructions.
- Sharp Edges: Use extreme Caution
- Do not use the light fixture with damaged power cord.
- Only use power cords that were supplied with light fixture.
- Follow the installation procedure to hand light fixture securely so that it cannot fall.
- Observe and follow all label information and instructions regarding dry, damp locations. Never directly spray water on the light fixture. Do not immerse light fixture in water.
- Turn off power at circuit breaker before attempting to install or perform maintenance on the fixture.
- Operate the light fixture within the temperature range of -30° C to 45° C.
- Please check and adhere to all local rules, regulations and zoning codes when installing.
- Do not use the fixture near flammable, explosive or reactive substances.
- Do not hang fixture by power cord.
- Do not attempt to open, rewire or reconfigure any components of the light system. It will void the warranty and could cause serious injury or death.
- Consult a qualified electrician before installation.

Proper Use

1. Remove the fixture and all parts from the carton. Before discarding the carton, double check to make certain that all parts are found.
2. Hang the light fixture using supplied hanging kit. Adjust the mounting height using push-pull cable latch.
3. Hang the light fixture at a minimum 12" from the light and plant canopy. Less than 12" distant may burn plants. 12"-24" recommended height from flowering canopy. 24"-48" recommended height from veg canopy. Start high, adjust as plants acclimate.
