KEY FEATURES

PURE TRIM™

Proprietary cutting material eliminates the need for lubricants, keeping your product pure.

CLOSED LOOP SYSTEM

Zero fan. 100% of trim is captured and ready for extraction.

RAPID LOADING

Lock and load pivot system streamlines production for rapid throughput and unloading.

MAX CUTTING SURFACE

Long narrow drum utilizes more surface area inside the drum for cutting.

REMOVABLE TRIM BINS

Two food grade trim bins safely catch excess trim for future use.

TOOL FREE DISASSEMBLY

Lever release system lets you remove drum with ease.

MORE ABOUT

The Triminators® XL Dry is the faster dry trimmer in the World. It's specifically built for commercial volume application with boutique quality that doesn't sacrifice the quality of trim.

The XL Dry meets the demands of large-scale production with ease by offering streamlined repeatable processes. The set and forget timer frees up operator time so they can focus on other areas, such as prep work for next batch. The innovative lock and load pivot system makes it hassle-free to fill and unload your batches. The patented Pure Trim™ shear band creates more uptime and longer trim sessions between cleanings.
