

# Portable, Ultrafast, Modular Electric Vehicle Charging Unit

## SPARKCHARGE MODELS

### A portable electric vehicle charger.

SparkCharge's units follow CHAdeMO protocols for charging and will also support SAE Combo soon. Since the chargers are compact, they can be delivered to an EV owner on demand via any service company. This battery pack is modular, meaning you can have as much range as you want. In all, the model consists of 2 separate modules: the Battery Module & the Charger Module.
