# START

4 - h

**1.** To begin the setup process, start with charging your device using the micro USB cable supplied.

**2.** Go to **Kiiroo.com** and select '**LOGIN**' in the navigation menu, located in the top right of the screen. Login to your Kiiroo account, or make an account if you have not already done so.

**3.** Once you are logged in, the next step will be to **register your device**

<https://www.kiiroo.com/register-your-device/> Please have your authenticity card ready.

4. After registering your device, please download the FeelConnect app on your mobile phone <https://feel-technologies.com/index.php?userid=3450627053> and follow the instructions on how to connect your device.

5. When your device is fully charged, remove the micro USB cable. Then power on by pressing the multifunctional button and **hold for 4 seconds**. A solid red light will show and **Bluetooth** will be active.

# Services

## *Feel Your Lover*

When paired online, the two complimentary devices give you the touch and intimacy you crave, from anywhere in the world.

## *Feel Webcam Models*

Our cam partners have a special interactive section on their website with hot models ready to control your device. Every move cam models make can be felt in the device.

## *Feel Videos*

Our exclusive encoded porn videos will make you feel and see your favorite model making the moves that turn you on most.

## *Feel Virtual Reality*

Use the devices in combination with all main VR glasses and Virtual Reality Porn. Experience high quality adult videos filmed in 180-degrees, with 3D stereoscopic views from head to toe.

**Go to [feelme.com](http://feelme.com) to find a variety of content to connect to.**

# Modes

- 1 •  Manual Mode - Alone
-  Manual Mode - Two Way
- 2 •  Fast Pump
- 3 •  Slow Pump

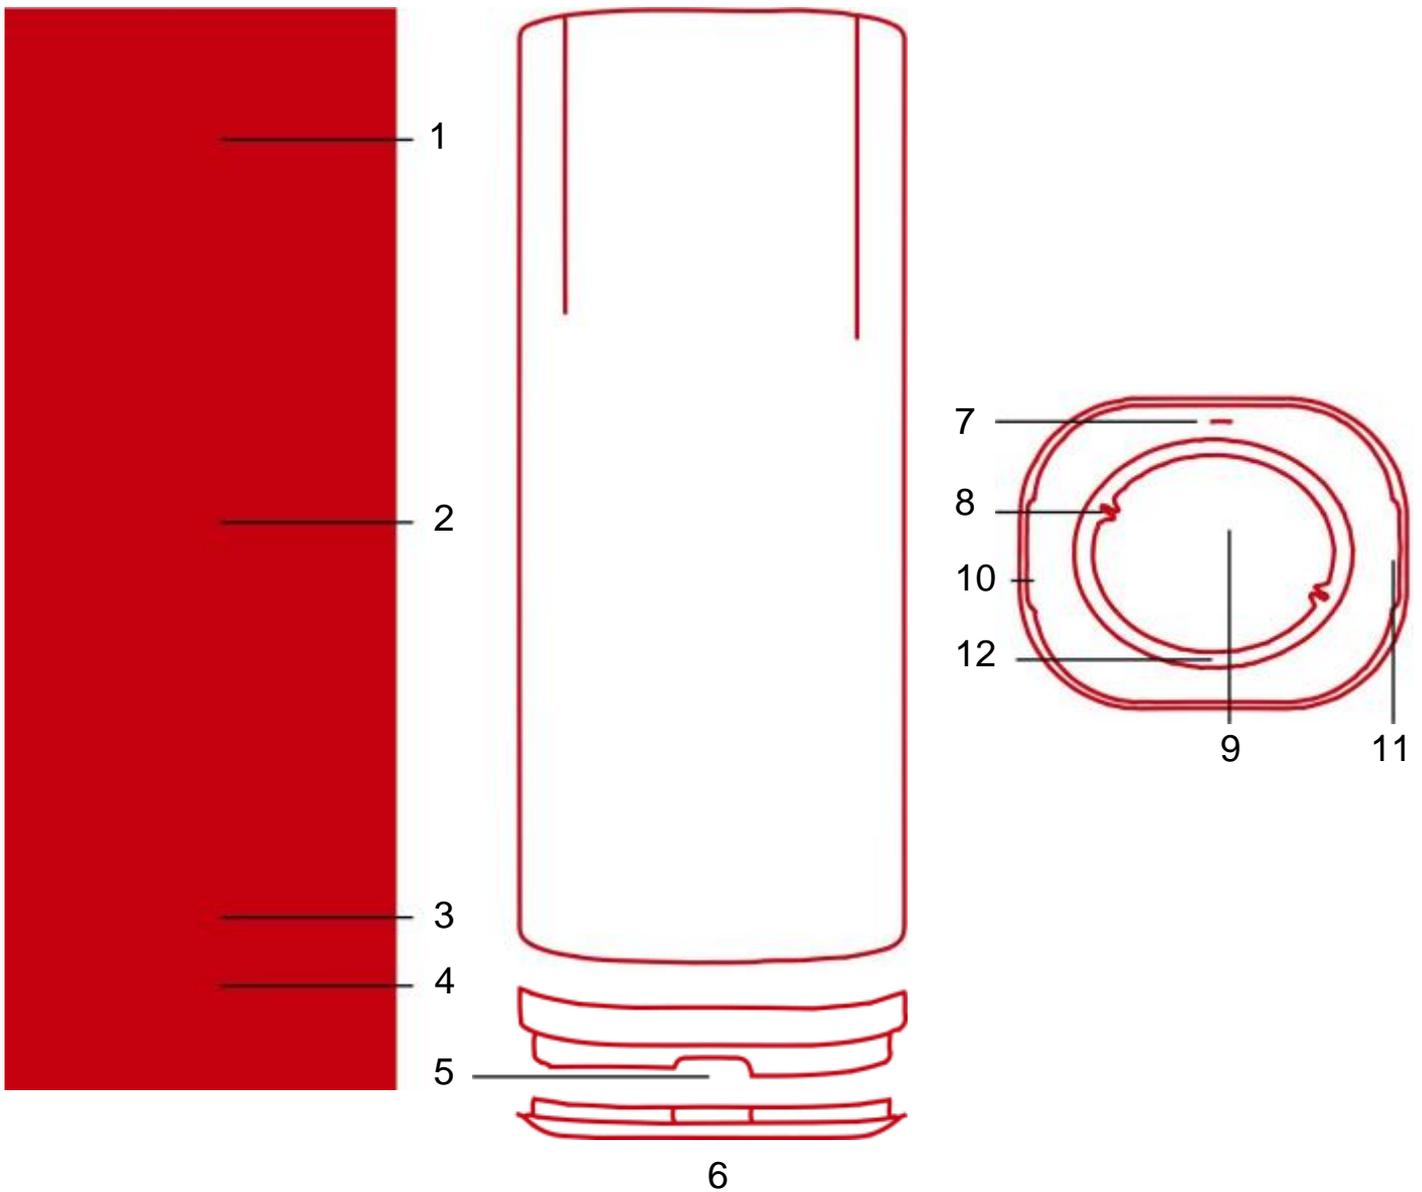

Onyx has three contraction modes: manual, fast pump and slow pump. Cycle through by repeatedly clicking the multifunctional button, until you reach the mode of your choice.

The manual mode allows the user to masturbate by swiping the touch pad. No other movements are required.

To activate the manual - together mode, log on to the platform. If you swipe up on the touch pad, you have the power. Once it is activated, you can send data to another Onyx and control your own device at the same time. If your partner swipes first, they have the power over both of you.

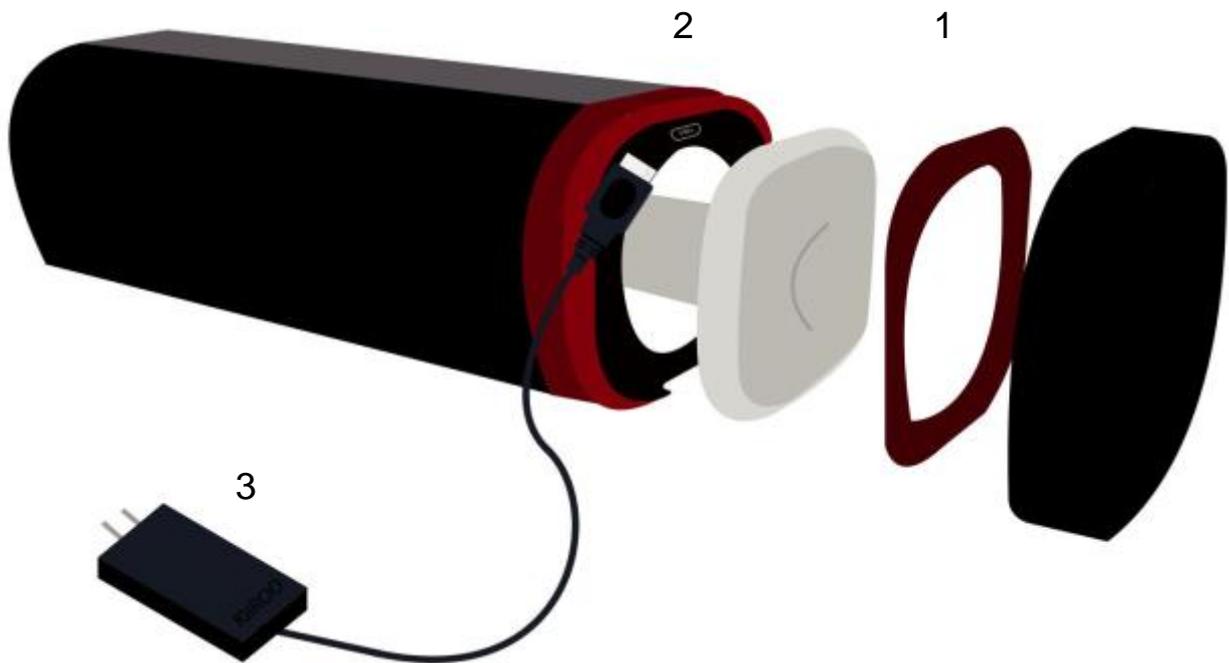

# Product Overview

- 1. Motor
- 2. Touch Pad
- 3. Led Lights
- 4. Multifunctional Button
- 5. Clip Release
- 6. Grip Clip
- 7. Charging Port
- 8. Air Channel
- 9. Pleasure Core

- 10. Left Cap Clip
- 11. Right Cap Clip
- 12. Rim

# Charging & LED indicator

- 1.** Remove cap, grip clip and internal sleeve before charging.
- 2.** Insert the MicroUSB into Onyx's charging port.
- 3.** Insert the other end into a USB 4 port. This can be a computer or charger.
- 4.** Wait for the LED light to pulse slowly. This indicates that onyx is charging.

5

- 5.** The LED light will glow solid when Onyx is fully charged and Bluetooth active.
- 6.** When the battery is low, the LED indicator will prompt you to charge by pulsing again. You have 5 minutes to charge before the battery turns off and disconnects.

# Sleeve, Handling & Lube

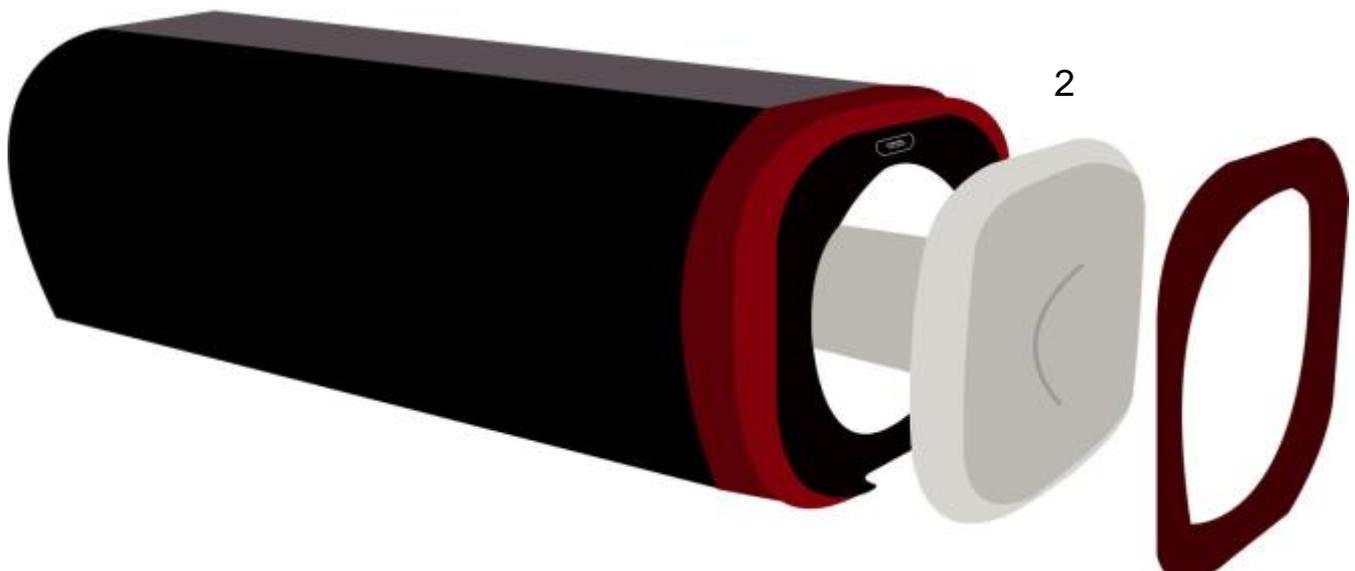

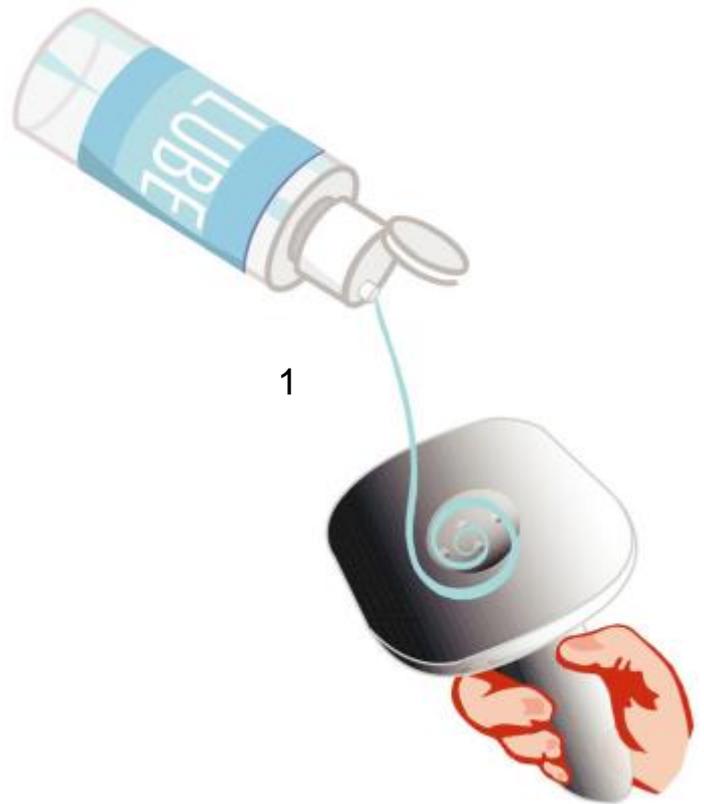

Onyx is not a hands-free device. Always have at least one hand on the device to hold it in place, and ensure an optimum experience whilst in use. Two hands is also a possibility for improved stability.

KIIROO recommends that you use a water-based lubricant with your Onyx. Do not use silicone lubricant, as it could deteriorate the sleeve material. Never use massage oil or hand cream as lubricants.

**1.** To apply Fleshlight® sleeve, hold it open in one hand. Take the lubricant in the other hand and apply generously to the center and rim of the sleeve.

**2.** Place the sleeve inside the pleasure core and make sure it is resting evenly. Apply the clip grip, ensuring it clicks securely and holds the sleeve in the correct position.

Insert penis slowly, to prevent damage to the sleeve. (Add more lubricant to penis if necessary)

# Cleaning

**1.** Always clean Onyx's internal Fleshlight® sleeve thoroughly after each use. Rinse the sleeve with warm water and allow to air dry before placing back in the casing.

**2.** If the body, ring or grip clip needs to be cleaned, it can be wiped down with antibacterial cloths.

# Disclaimer & Warning

We, KIIROO, make no medical claims with our devices. Our devices are not to be used by or on minors (anyone under 18), or anyone who is unable or unwilling to express consent. Do not use KIIROO devices on inflamed or irritated areas. Follow all directions as set forth by the manual, and do not attempt to make any technical adjustments to your KIIROO device at home. KIIROO will not be held responsible for any undesirable results of misuse.

Do NOT use your Onyx if:

- There are exposed electronic elements

- You are in a shower, tub, swimming pool, sauna, steam room etc.

- It is excessively hot to the touch

## Disposal Specifications

While Onyx is made of eco-conscious materials, you should not dispose of Onyx in your waste bin. Like any electronic with a rechargeable battery, there are disposal regulations. These vary by city and local municipality. Be aware of how electronics are disposed of where you live. KIIROO suggests to ask at your local council center. Also consider that in your locality, Onyx may be considered bio-waste because of its intimate nature.

- Avoid leaving your Pearl in direct sunlight and NEVER expose it to extreme heat.

- Never use cleansers containing alcohol, petrol or acetone.

- Do not use heating appliances to dry the sleeve or device.

- Avoid using harsh soaps as they can damage the sleeve material.

# Aftercare & Help

## Specifications

Materials: POM, ABS, silicone

Finish: Matte

Size: 246 x 90 x 80 mm

Weight: 780 grams

Battery: LIPO 2200 mAh 3.7v 10C

**Charging:** 4 hours

**User time:** 1 hour
