7. Handling and Lubrication

Hold Pearl at the base of the device and apply a generous amount of water-based lubricant.

***Please note:*

- Pearl is not a hands free device.*
- Pearl is intended for vaginal use only.*

Recommended:

1. Always use Fleshlube or any other waterbased lubricant.
2. Always use lubricant as it will prolong the lifespan of Pearl and give you the most comfortable experience.

Do not use:

1. Silicone lubricant as it will deteriorate the silicone of Pearl.
2. Massage oils or hand cream as lubricants.
3. Pearl anally. It does not have a tapered base and can therefore get stuck.

8. Cleaning

Always clean Pearl thoroughly after each use. Use warm water along with antibacterial soap, dish soap or a specialized toy cleaner.

Try to avoid cleaners containing alcohol, petrol or acetone and harsh soaps as this might damage the silicone of the Pearl.

** Hygiene silicone is an easy material to clean, and will last for years when taken care of properly.*
