

# HEATING CUSHION

## USER GUIDE

APMICWRM

Thank you for purchasing the Arf Pets Heating Cushion. This User Guide is intended to provide you with guidelines to ensure that operation of this product is safe and does not pose risk to the user. Any use that does not conform to the guidelines described in this User Guide may void the limited warranty.

Please read all directions before using the product and retain this guide for reference. This product is intended for household use only.

This product is covered by a limited one-year warranty. Coverage is subject to limits and exclusions. See warranty for details.

### Box Contents

- Heating pad
- Fleece lining
- User guide

### Safety Precautions

- Only use this product while your pet is under supervision.
- Do not allow your pet to chew on the cushion.
- Do not use the heating pad without the fleece liner.
- Do not exceed heating times. Overheating may damage the heating pad and increases the risk of burn injury.
- If the heating pad is too hot, wait for it to cool before handling.

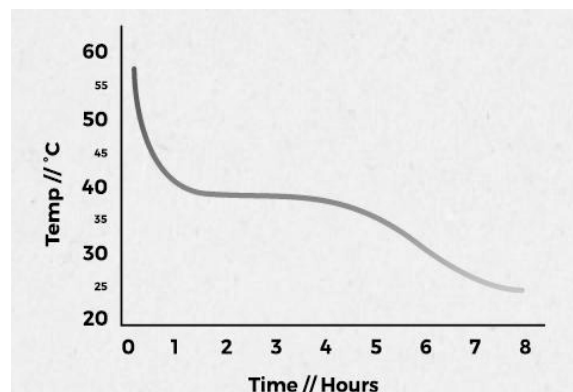

**⚠ WARNING: Do NOT use with anesthetized or unconscious animals incapable of reacting to thermal discomfort.**

### Heating Instructions

1. Remove the heating pad from the fleece lining.
2. Place the heating pad onto a bowl or plate and place in the microwave.
3. Set the microwave to medium power and run based on the chart below.

Wattage	Time
500W–650W	3 minutes 20 seconds
650W–1000W	3 minutes
1000W–1300W	2 minutes

4. Remove the pad from the microwave and test the temperature against your hand. If it is too hot, allow it to cool until it is ready for use.
5. Place the pad into the fleece lining and allow your pet to sit on it or place it into your pet's bedding.
6. The length of time that the cushion will retain heat is dependent upon the temperature it reaches, as seen in the graph.

## Care and Maintenance

- To clean the fleece liner, first remove the heating pad. The liner can be hand washed or machine washed.

## Specifications

Dimensions: 8" x 8"

Liner material: fleece

Heating pad material: gel
