

# KrossTex™

HEAVY DUTY SHOP TOWELS

**KrossTex™ Shop Towels** are an excellent alternative to rental rags, and other disposable wipes on the market today. Our **KrossTex Shop Towels** are made to feel like a shop rag, so you can see and feel the difference, giving you the confidence that **KrossTex** will do the job at hand.

- **STRONGER** - Unique Cross-Lapping Process, creates exceptional cross-directional strength and durability
- **POWERFUL** - Three-Dimensional textured design gives this wipe more scrubbing power
- **THICKER** - Extra thick fabric for that shop rag feel and performance
- **EXTRA ABSORBENT** - 20% more than the competition
- **LOW LINT** - Can be used in critical/delicate applications
- **EFFECTIVE** - More surface area to hold and trap debris, removing ink and other contaminants quickly and easily

**KrossTex Shop Towels** are specifically designed to help remove contaminants from all surfaces. Our wipers will reduce ink build-up/feed-back in your dampening system. Unlike "Shop Rags" from rental towel companies, our wipers are free from left over cleaning solutions and debris that leave behind residue when they are used to clean the dampening system rollers. Using **KrossTex Shop Towels** in this critical area on your press will improve ink/water balance, reduce make-ready times, and save money by reducing paper waste.

### Protecting the Worker

Disposable wipers can also provide worker safety benefits because they are consistently clean and free from contamination. Rental shop towels that come "clean" from the launderer often contain residual substances the laundering process could not remove, including metal shavings, solvents, oil and grease. Workers are then exposed to these substances, which can injure faces and hands, or cause skin rashes.

Item #	Style	Size(in)	Wipes per pack	Pack per case	Wipes per case
KT-GA029	Quarter Fold	12.5 x 13.75	25	15	375
KT-GA028	Quarter Fold	12.5 x 17	25	15	375
