KCV-A374SD / D374SD 10.09.15

KCV-A374SD / D374SD
MANUAL

[ 7 inch Digital color video phone ]

Warranty

To receive after service, have the following ready before you contact our branches.
1. Name of the product.
2. Model number of the product.
3. The area of problem.
4. Phone number and address at which you can be contacted.

KOCOM Warranties the original purchaser of this product as follows.
1) This product is produced under strict quality control and inspection procedures.
2) If this product breaks down during proper use as a result of product defect, KOCOM will repair it within one year from date of purchase free of charge.
3) The following cases will be subject to charge, even during warranty period:
   a. Breakdown during transport, or through careless treatment, by consumer.
   b. Breakdown cause by unauthorized repair, or system modification.
   c. Breakdown caused by natural disaster or power disorder.

SD Card Memory
COLOR HANDSFREE

- 7 inch Color Digital LCD (NTSC / PAL Auto switching)
- Slim, Compact & Luxury Design
- Easy to operate using OSD menu & Touch key
- Digital Photo Album
- Digital Video Recorder
  - Motion Detection
  - Memory Size : up to 32G(SD Card interface)
  - Video Format : Moving picture (H.264), Still cut : JPEG
- Multiple language support
  - English, Spanish, French and Russian
- Connection up to 2 Door cameras or CCTV cameras with 2 monitors and 2 sub audio phone(KDP-202G)
- Call & Communication with visitor & Door open function
- Door Opener Connectable from Either Monitor or Camera

KOCOM CO.,LTD.
Cautions for safety

For safe use, please stick to the following cautions.

- Please, save this manual after reading these instructions carefully. Read and understand all instructions to set up rightly.
- This Cautions for Safety may include items that are not contained in specifications of the product that consumer purchases.
- If you need assistance with the set-up or operation, please contact with A/S center.

The important marks in the manual,
To help our customers to understand this manual, to prevent any personal injury or property damage, some marks are used in the manual.
The marks and the drawing signs are below, Please, understand the marks before reading the manual.

The meaning of the drawing signs,

- Mishandling the device with ignoring this sign may result in serious injury or death.
- Mishandling the device with ignoring this sign may result physical injury or material damage.
- This Cautions for Safety may include items that are not contained in specifications of the product that consumer purchases.
- Connect the electric wire with the designed ways and ground.
- Do the wiring work by using the designed material.
- Install the circuit breaker after checking the safety such as electric shock and leakage. Turn off the power before you install or A/S work.
- Do not install near the water and chemicals.
- Do not cause any damage, break and modify the plug. Overloading, heating, pulling causes the damage.
- Do not install near the water and chemicals.
- Do not give any damage, break and modify the plug. Overloading, heating, pulling causes the damage.
- Do not place the plug near the heater. The damaged code causes fire and electric shock. Do not pull the power code when unplugging.
- The damaged code causes fire and electric shock. Must pull with plug. Do not touch with wet hands. It causes the electric shock.
- Do not use any voltage, except the marked regular voltage.
- Do not use the power terminal at the units to other electric device except the designed device.
- Do not install the units at the leaking place. If its cause, there is no plug, turn, pull, or break the breaker.
- Unplug this device when you try to move it to another place. If the electric line is connected inside of the unit, please contact your dealer or service center.
- Do not use liquid or aerosol cleaners. Use a damp cloth for cleaning.
- Do not disassemble this unit.
- Stop up P.V.C pipe using Bucking Box Monitor

Caution

- The law limits distributing the power lines to an authorized person from government. The work from an unauthorized person cause fire or electric shock.
- Place this unit securely on a stable surface. Serious damage and/or injury may result if the unit falls.
- Do not set up this unit near the leaking place because it may expose you to dangerous voltage or other risks.
- Even if your product is water proof, do not install it in a plastered or air place of water leakage, which can be a short circuit.
- The work of distributing wires needs skills and experiences. So please, for assistance, contact your dealer or call service center.
- The communication lines should be built in being distant from the power source. This may result in the risk of fire, electric shock and communication disorder.
- Setting the communication lines in a high humid place such as outside without any protection from rain causes the communication disorder.
- Keep the hook at the wall-mounted device safe. The hook may cause the physical injury.
- Think about the thickness and quality of wall material. The unqualified material may make the device fall.
- The communication lines should be built in being distant from the power source. This may result in the risk of fire, electric shock and communication disorder.
- Setting the communication lines in a high humid place such as outside without any protection from rain causes the communication disorder.
- Keep the hook at the wall-mounted device safe. The hook may cause the physical injury.
- Think about the thickness and quality of wall material. The unqualified material may make the device fall.

Cautions for Repairs and Maintenance

- Keep the inside of the device clean. Having the dust inside without any cleaning for a long time causes the fire. If necessary, contact your dealer or service center to get cleaning service.
- Unplug this device when you want to check the inside. If there is no plug, turn, pull, or break the breaker.
- Unplug this device when you try to move it to another place. If the electric line is connected inside of the unit, please contact your dealer or service center.
- Do not use liquid or aerosol cleaners. Use a damp cloth for cleaning.

Warnings for Usage

- Do not install this unit near the water and dust, for example, in a bathroom or near the washing machine. It caused fire and electric shock.
- Do not install this unit near the fire, for example, near kitchen sink, heater or the like.
- Do not install near the noxious gas such as hydrogen Sulfide, metal power and the like.
- Do not install near the water and chemicals.
- Do not give any damage, break and modify the plug. Overloading, heating, pulling causes the damage.
- Do not place the plug near the heater. The damaged code causes fire and electric shock. Do not pull the power code when unplugging.
- The damaged code causes fire and electric shock. Must pull with plug. Do not touch with wet hands. It causes the electric shock.
- Do not use any voltage, except the marked regular voltage.
- Do not use the power terminal at the units to other electric device except the designed device.
- Do not install the units at the leaking place. If its cause, there is no plug, turn, pull, or break the breaker.
- Unplug this device when you try to move it to another place. If the electric line is connected inside of the unit, please contact your dealer or service center.
- Do not use liquid or aerosol cleaners. Use a damp cloth for cleaning.

Warning

- Do not install this unit near the water and dust, for example, in a bathroom or near the washing machine. It caused fire and electric shock.
- Do not install this unit near the fire, for example, near kitchen sink, heater or the like.
- Do not install near the noxious gas such as hydrogen Sulfide, metal power and the like.
- Do not install near the water and chemicals.
- Do not give any damage, break and modify the plug. Overloading, heating, pulling causes the damage.
- Do not place the plug near the heater. The damaged code causes fire and electric shock. Do not pull the power code when unplugging.
- The damaged code causes fire and electric shock. Must pull with plug. Do not touch with wet hands. It causes the electric shock.
- Do not use any voltage, except the marked regular voltage.
- Do not use the power terminal at the units to other electric device except the designed device.
- Do not install the units at the leaking place. If its cause, there is no plug, turn, pull, or break the breaker.
- Unplug this device when you try to move it to another place. If the electric line is connected inside of the unit, please contact your dealer or service center.
- Do not use liquid or aerosol cleaners. Use a damp cloth for cleaning.

Cautions for Use

- This unit is not designed for security purpose.
- Do not handle the unit with the wet hands.
- Do not place a pot with water or a small metal material on the Units.
- Do not cover the ventilating opening or put any metal material in the Units.
- During thunderstorms, avoid using this unit. There may be a remote risk of an electric shock from lightning.
- Do not modify the unit, Open the main gate after checking ID if the image and sound system do not work. Call A/S.
- Do not disassemble the back and cabinet cover.

Cautions for Abnormality

- Change the damaged electric code.
- Unplug this unit from plug socket and refer servicing to an authorized service center when the following conditions occur:
- If liquid has been spilled into the unit.
- If the unit does not work normally by following the operating instructions.
- If the unit has been dropped or physically damaged.

Caution

- Do not disassemble this unit at will as this device is composed by precision parts.
- Install the unit by following the set-up instructions of Kocom.
- Do not touch or insert any foreign substances, for example, sticker, magnetic, opener and the like.
- Make U-type at the end of wires as the rain can affect on the system by following the wires during the rainy season.

Videophone

- Separate the AC/DC lines with the hook of the wall-mounted type when installing.
- Connect the lines after peeling the wires properly.
- Do not distribute signal line with AC line. Use the designed driver to connect the lines to terminal.
- Do not clean the LCD with the damp cloth for cleaning. Use the only dry and soft cloth.
- Do not install the main gate monitor at the leaking place.

Things You Need to Know

- This product is designed as a home videophone and cannot use continuously like monitor camera.
- If there is temperature difference between inner part of camera and surrounding, dew condensation occurs on camera lens and may disturb image. If dew condensation is removed from camera lens, image quality recovers.
- While LED light examination range is narrower than camera shot range at night, so there is less amount of light at night than day.
- So it is difficult to see the face in low illumination condition due to noise increase on screen, but it is not from defect, Monitor screen (liquid crystal panel) is not in defect when some pixels always light or black out.
- Please install monitor and camera over 5 cm away. Avoid installing at a place with too much noise, because too much noise around camera cause phone call inferiority.
- Do not place an object within 20cm in front of monitor. It causes phone call inferiority, especially because microphone is installed at the top of monitor.
- If strong light such as sunlight flows into camera module, screen saturation (or strange mark) and image shaking might occur.
- This is not a defect, so please do not install camera where a direct ray of light do not flow.

Cautions

- In some cases there is occurrence of product destruction, malfunction, noise mixing and picture quality deterioration due to mixing of other tool’s induced voltage or thunder with communication wiring of monitor/camera, monitor/extended monitor.
- Do not use with power line such as outdoor wiring or AC power, or phones and other tools.
- You cannot use if you incorrectly wire the AC voltage between monitor/camera, monitor/extended monitor. Call the store or agency where you purchased this product and consult to solve the problem.
- Beware that unfixable damage might be caused due to authorizing AC voltage on communication wiring of monitor/camera, monitor/extended monitor.
- Do not ever disjoint this product. It may cause electrocution accident when touching high-voltage circuit inside this product.
- Beware that unfixable damage might be caused due to product destruction.
- Power must be connected to domestic voltage (product rated voltage) consent or interior wire.
- If connected to other motive power type, product destruction, noise mixing, and picture distortion may occur.
- Do not drop this product. Glass is used for monitor and might break, or cause other circuit inferiority.
- In such case, immediately turn down the power switch, and call to consult agency or store in which this product was purchased.
- If installed near transmission antenna such as broadcasting station, electromagnetic wave may mix and cause picture distortion or voice mixing.
- Avoid installing near tools with strong electromagnetic waves such as microwaves and cell phones, or it may cause picture distortion.
- Do not install monitor in following places:
  - Above or around water heater, non-cooker, heater
  - Place exposed to direct rays of sun
  - Place with high humidity such as bathroom, washroom, heated room
  - Place with a lot of gas, dust, smoke
  - Dangerous place with sprays of water or chemicals
  - Do not wire with inevitable, drugs or chemicals such as thinner and alcohol, or it may damage the surface of the product.
  - Beware of occurrence of image quality deterioration or malfunction from cause of humidity due to penetration of chemicals or water into camera’s image sensors.

- As the picture, it prevents temperature difference of camera (outside) and monitor (inside), and removes dew condensation caused by humidity of camera window.
- Camera must be installed when wall cement is completely dry.
- When product is installed in winter below -5'C, wait for approximately 2 hours to connect. Dew formation in monitor and camera due to temperature difference inside and outside may cause product defect.
- Avoid installing monitor and camera in place directly exposed to heat or where gas noisiness is highly occurring.
- Do not install monitor and camera at the leaking place.
Components of product

- **Monitor**
  - A Wall hanger frame
  - Screws for fixing monitor
  - 4×10mm 4ea
  - 3×8mm 1ea

- **Wire**
  - 4P×2 4 Pin cable for camera
  - 6P 6 Pin cable for sub audio phone (KDP-602G)
  - 8P 8 Pin cable for monitor extension
  - 2P 2 Pin cable for monitor door opener (DC)
  - 2P 2 Pin cable for monitor door opener (AC/DC)

Name and Functions of each part

**The front side**

1. **Power switch**: Use by turning AC power on/off.
2. **Monitor screen (LCD)**: Output of image sent from camera.
3. **Speaker**
4. **Menu button / Cancel button**:
   - Each Menu Setup Button
   - Move to upper Menu while in Menu Mode
5. **Monitor button / UP button**:
   - Entrance Door Camera Video Monitoring Function
   - Switch to CAM1 when pressing 1 time, CAM2 when pressing one more time (2 times), pressing one more time will switch to Standby.
   - UP button to move to MENU mode
6. **Internal Com & COM button / DOWN button**:
   - Internal Line Calling & Talking Function, Door Phone Function
   - DOWN button to move to MENU Mode
7. **Door Open button / SELECT button**:
   - Door Open function during talking with visitor.
   - SELECT button to move to MENU Mode
8. **SD card input section**
9. **Brightness adjustment volume**: Adjusting LCD screen brightness to use.
10. **Call volume adjustment switch**: Adjusting call sound in 3 steps [high, medium, low] to use.
11. **Speaking volume adjustment switch**: Adjust speaking volume transmitted from camera to monitor in 3 steps [high, medium, low] by use. (In shipment: [medium])
12. **Color adjustment volume**: Adjust color on LCD screen, (In shipment, adjusted to standard color)
13. **Door 1 – DC door switch terminal**
14. **Door 2 – AC/DC door switch terminal**
15. **Camera 1 terminal**
16. **Camera 2 terminal**
17. **Sub audio phone terminal**
18. **Extension monitor terminal**
19. **SD card input section**
20. **Brightness adjustment volume**: Adjusting LCD screen brightness to use.

**The back side**

1. **White LED diffusion**: Has built-in white LED that works at night and flickers when it gets dark around camera.
2. **Camera section**: Converts camera surroundings to visual signal and deliver to monitor.
3. **Speaker**
4. **Microphone**
5. **Call button**: Push this button for output of call sound from monitor.
6. **Monitor connection wire**: 4 wires by polarity
   - Blue: Vcc, Yellow: Ground, Red: Audio, White: Video
7. **DC door opener connection wire**: DC 2 wires by non-polarity

Name and Functions of each part

**Camera (KC-MC24)**

1. While LED diffusion: Has built-in white LED that works at night and flickers when it gets dark around camera.
2. Camera section:
   - Converts camera surroundings to visual signal and deliver to monitor.
3. Speaker
4. Microphone
5. Call button: Push this button for output of call sound from monitor.
6. Monitor connection wire: 4 wires by polarity
   - Blue: Vcc, Yellow: Ground, Red: Audio, White: Video
7. DC door opener connection wire: DC 2 wires by non-polarity

- Door Camera 2 (KC-MC24)
- Monitor

---

**Caution of camera installation**

Avoid installing camera exposed to direct ray of light (and sun).
- Beware backlight and darkness of visitor’s face, which makes identification difficult.
- Avoid installing camera in places such as the following picture.
  1. Place illuminating sky as background
  2. Place with white wall reflecting direct ray of light
  3. Place with direct ray of light

**Monitor installation**

- Remove wall-hanger bracket metal behind monitor.
- Install wall-hanger bracket metal on 1 type box or wall with attached Vis.
- Connect wiring to monitor back terminal referring to product connection diagram.
- Hang monitor on wall-hanging metal, and fix monitor on wall-hanger bracket metal using attached Vis.
- Plug monitor’s power plug into consent and check to see if the power switch is [ON] on the left side of monitor.

**Directly connecting cut-off power cord with power wire**

1. Do not do such electric work on your own. Installing product in this way requires reliance on electric installation man with electric work license.
2. Insulate with insulating tape while cutting off power cord and connecting with power wire so electric wire metal does not expose. Contact between exposed electric wires cause fire or electric shock accident.
3. Such electric work requires connection after interception of supplied power.

---

**Door camera installation**

- Camera installation location
- Camera installation in height
  - Standard camera installation height is when lens is about 1,400mm above the floor.
- Standard installation height

**Standard installation height**

- The above angel of view is based on the KC-MC24 camera.
- The numbers very according to the type of camera.

**Avoid installing camera exposed to direct ray of light (and sun).**
- Beware backlight and darkness of visitor’s face, which makes identification difficult.
- Avoid installing camera in places such as the following picture.
  1. Place illuminating sky as background
  2. Place with white wall reflecting direct ray of light
  3. Place with direct ray of light
Instructions for operation

- Sub audio phone connection

- Ex_monitor connection

- Door lock connection

Wiring diagram [cable requirement]

- Upto 100M : CAT5 cable
  - Orange W / Orange ①VCC double up
  - Green W / Green ②GND double up
  - Blue W / Blue ③Audio double up
  - Brown W / Brown ④Video double up

- Upto 50M : TIV 0.65㎟cable

- Upto 100M : Over TIV 0.8㎟cable

- Upto 150M : TIV 0.8㎟cable + RG–59 / U
  RG–59 / U (Coaxial cable) for Video signal
  (Connect core to Video & shield to GND)

※ Based on distance from a camera to the monitor
※ CAT5 wire configuration
※ In case of more than 50m of CAT5 cable length, the screen and voice quality can get lower.

※ According to outside environment, you may view the images somewhat unclear.
However, they do not result from any defect or trouble of the product.
Instructions for operation

Communication with door camera

Push the call button. The camera melody is turned on.
You can hear call sound from all connected monitors, and camera image comes out on screen.
(Call time : 3 minutes)

Communication with door camera

Push the call button and communicate with the door camera
(Call time : 3 minutes)
Push the call button again and stop the communication.

Camera monitoring

Push the monitor button when there is no image on monitor screen.
Camera image appears on screen.
(Monitoring time : 1 minute)

Push the monitoring button 2 times and the image of camera 2 appears.

Push the monitor button again and stop the communication.
Press the call button while monitoring and start to communicate with the calling camera.
Press the call button again and stop the communication with the calling camera.

Push the monitor button
again and stop the communication.

Push the call button again and stop the communication with the calling camera.

While communicating with a camera,
Press the door open button and open automatically the door of the camera.
About 5 seconds after pushing the button, call ends automatically.

Extension call & communication

Internal call sending mode

While the screen is off, push the call button for 1 second.
The screen turns on and 'INTERCOM Call' is written on OSD.
(INTERCOM Call Standby time : 1 minute)

When connected to the submonitor and sub-audiophone, the main monitor shows 'INTERCOM Call on OSD, (INTERCOM Call Standby time : 1 minute)
INTERCOM Talk starts.

Push the call button again and stop INTERCOM Talk.

Caution : Push the call button for 1 second.

Internal Call Receiving Mode

When receiving a call from Sub monitor and sub-audiophone, the main monitor shows 'INTERCOM Call on OSD, (INTERCOM Call Standby time : 1 minute)
INTERCOM Talk.

Push the call button and INTERCOM Talk starts.
Push the call button again and stop INTERCOM Talk.

Specification

- SD CARD
  Maximum Available Capacity : 16G (HD)
  SAND DISK – MLC Method, CLASS-4
  KING MAX – MLC Method, CLASS-6
  Bareun Electronics – MLC Method, CLASS-4
  Be careful when use other SD Cards except listed above since they may cause error.

- Video Image Storage Resolution
  NTSC : 704 X 480 15fps / PAL : 704 X 540 15fps / H,264 FORMAT : Mpeg4

- Image Storage Resolution
  704 X 480 / JPEG FORMAT

- Playback the video image stored in SD CARD from PC.
  PLAYER : WINDOW MEDIA PLAYER, GOM PLAYER, KMPLAYER
  Download and install kLite codec standard version from above link.)
MENU Setting

1. Absence Set :
   - Door camera image is automatically recorded or captured when there is call during absence.
   - Absence Indication with LED (Red Blink)

   MENU Button ▶ Move Menu to Absence Set ▶ SELECT Button ▶ Move to required Mode at YES(Release)/ NO(Release)

2. Play Folder :
   - Play or Delete stored Video/ Image/ Album File.
   - Files in the IMAGE and ALBUM folder are able to check with Preview screen, and is displayed in full screen when select the desired file.

   MENU Button ▶ Move Menu to Play Folder ▶ SELECT Button ▶ Move to desired mode from VIDEO/ IMAGE/ ALBUM ▶ SELECT Button ▶ Select file from List, move to desired mode menu from (Play) or (Delete) ▶ SELECT Button

3. Save Mode Set :
   - Select either Video Record Mode or Image Capture Mode for Door Camera Image Recording during absence hour.

   MENU Button ▶ Move Menu to Save Mode Set ▶ SELECT Button ▶ Move to desired mode from MOVIE/VIDEO/ CAM(ERA) CAP(TURE) ▶ SELECT Button

4. Digital Frame :
   - Display the desired picture without turn off the LCD screen at Standby Screen.
   - Time Set : 30 Minute/1 Hour - It may shorten LCD screen life when it is set to “On” for long hour.

   MENU Button ▶ Move Menu to Digital Frame ▶ SELECT Button ▶ Move to FIXED Mode ▶ SELECT Button ▶ Move Position to desire using UP/DOWN ▶ SELECT Button ▶ Move to desired Mode from 30MIN/HOUR ▶ SELECT Button ▶ Full Screen Display

   ON ▶ Display the every 10 seconds picture for all picture files in the Album Folder

5. Rec Time : It selects the time to record the image when it is set to MOVIE from Save Mode Set.

   MENU Button ▶ Move Menu to Rec Time ▶ SELECT Button ▶ Move to desired mode from 30SEC/3MIN/30MIN ▶ SELECT Button

6. Monitoring Time Set :
   - It sets each of the Door camera’s monitoring time.
   - CAM : 15 Min./5 Min./0 Min., CAMD : 30 Min./15 Min./0 Min.

   MENU Button ▶ Move Menu to Monitoring Time Set ▶ SELECT Button ▶ Move Menu to desired mode from 30SEC/3MIN/30MIN ▶ SELECT Button ▶ Move Time using UP/DOWN ▶ SELECT Button

7. Melody Set : It selects the melody sound of Door camera 1,2 and Interphone.

   MENU Button ▶ Move Menu to Melody set ▶ SELECT Button ▶ Move to desired mode from C1[1M/3M/5M], C2[3M/30M/1H] ▶ SELECT Button ▶ Change Melody using UP/DOWN ▶ SELECT Button

8. Time Set : It sets current time, YY/MM/DD/HH : MN

   MENU Button ▶ Move Menu to Time Set ▶ SELECT Button ▶ Move Menu to desired Time Set mode from 2010/09/28 09:30 ▶ SELECT Button ▶ Move Time using UP/DOWN ▶ SELECT Button

9. Languages Set : It selects the language to use. (English/French/Spanish/Russian/Korean)

   MENU Button ▶ Move Menu to Languages Set ▶ SELECT Button ▶ Move Menu to desired mode from English/French/Spanish/Russian/Korean ▶ SELECT Button

10. CAM Adjust : It sets CONTRAST & COLOR of the Door Camera’s image.

    MENU Button ▶ Move Menu to CAM Adjust ▶ SELECT Button ▶ Door camera image is turned on ▶ Adjust using CONTRAST UP/DOWN ▶ SELECT Button ▶ Adjust using COLOR UP/DOWN ▶ SELECT Button

11. Over Write : When it exceeds the SD CARD capacity during setup, it overwrites starting from the oldest files.

    MENU Button ▶ Move Menu to Over Write ▶ SELECT Button ▶ Move Menu to desired mode from YES(Release)/ NO(Release)

12. SD Card Info :
   - Display the total capacity information
   - Display the remaining capacity information
   - SD CARD Format

    MENU Button ▶ Move Menu to SD Card Info ▶ SELECT Button ▶ Move Menu to desired mode from YES/NO ▶ SELECT Button

13. System Info : It displays the version of Main Board, Memory Board, and Signal Type of Door Camera.

    MENU Button ▶ Move Menu to System Info ▶ SELECT Button

14. F/W Upgrade : When video image storage module F/W is changed, it copies the distributed BIN file to SD CARD for upgrade.
    (There must be only the latest distributed BIN file in the SD CARD for F/W upgrade.)
