

Color the Brazil Nuts  
and Butterflies

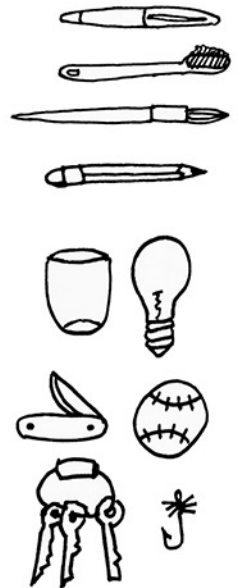

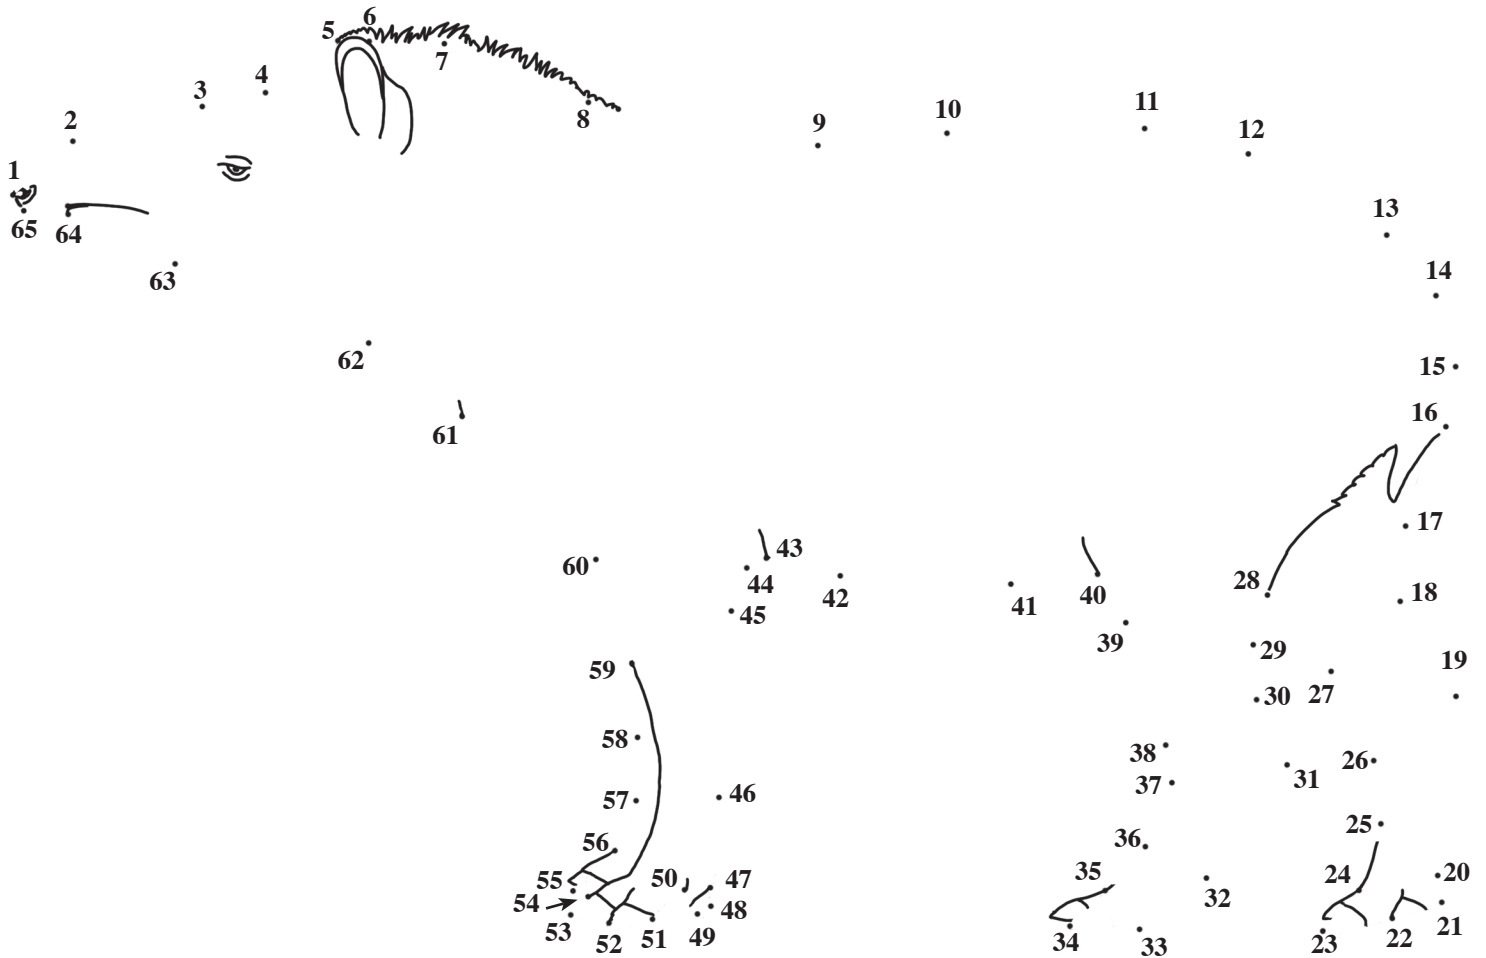

## Brazil Nut Tree Hidden Picture

Find the 10 things below that don't belong in a Brazil nut tree.

# Who am I? Dot to Dot

Connect the dots to discover which rainforest animal is hidden below.

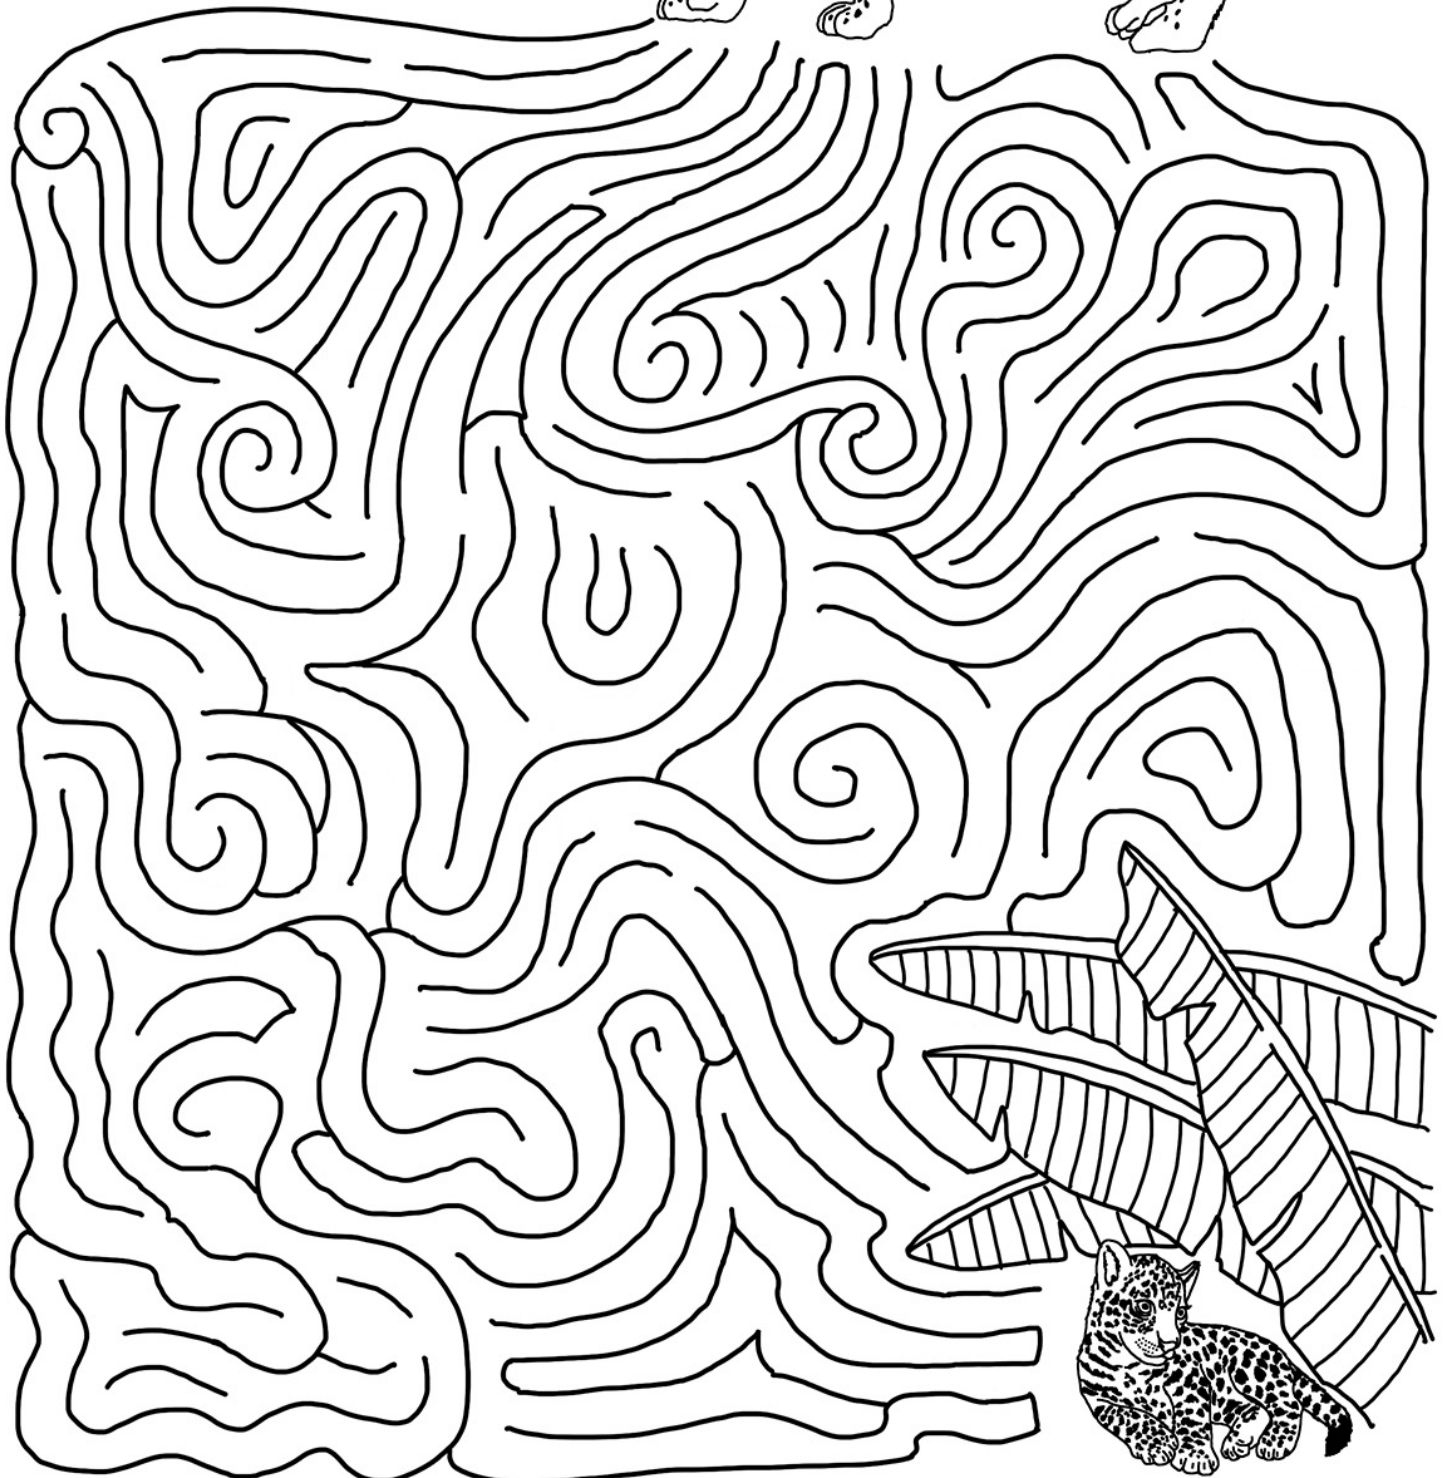

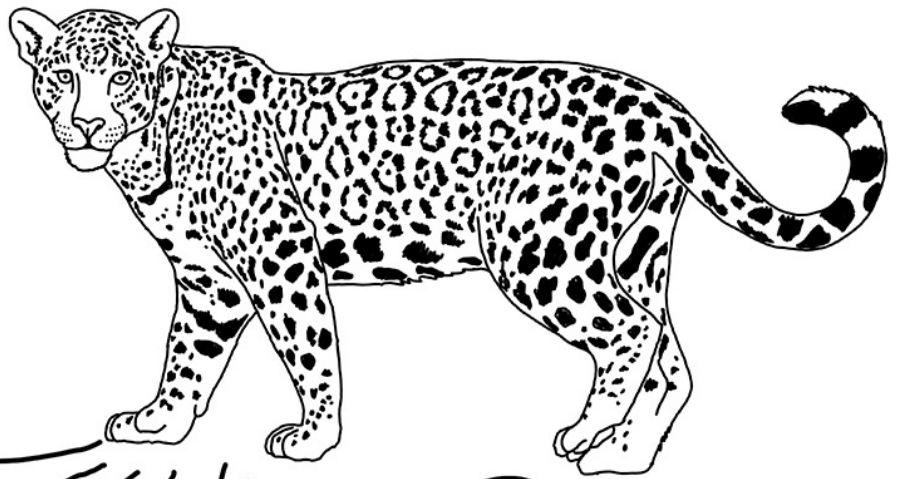

## Humongous Herbivore

This nocturnal herbivore can weigh up to 900 pounds! When running from predators, they barrel through dense brush and even dive into the water where they can hold their breath for several minutes to escape.

## Help Save the Baby!

Help the mother jaguar find her way through the maze to find her missing cub, before another rainforest predator can find it.

# Rainforest Life?

Circle all the animals that don't live in the rainforest.
