

## GLYPHOSATE SAMPLING INSTRUCTIONS

**STOP PLEASE READ ALL INSTRUCTIONS COMPLETELY BEFORE COLLECTING YOUR WATER SAMPLE STOP**  
**SAMPLES MUST BE COLLECTED MONDAY, TUESDAY OR WEDNESDAY AFTER 1:00 P.M. EST AND  
MUST BE SHIPPED 2 DAY DELIVERY**

**One test kit represents one sampling location. If you require testing on  
multiple locations you will need to purchase multiple test kits.**

1. Place the blue gel ice packs in the freezer for at least 8 hours prior to collecting your water sample.
2. Run Water until temperature stabilizes (usually 2-3 min)
3. Adjust Flow of water to as thin a stream as possible.  
(Ignore any other colored dot stickers they are for laboratory use only)
4. Slowly add water to the vial, slightly overfilling so that a meniscus forms above the rim, taking care not to spill water as you will dilute the preservative.
5. Screw the cap on firmly, being careful not to over tighten.
6. Tip the vial upside down and check for air bubbles. Gently shake vial and tap sides to dislodge any air bubbles which may be clinging to the glass vial or inside the cap. If an air bubble appears, remove cap and slowly add additional water to displace the air. Replace cap and check for air bubbles again.

Repeat steps 5 through 7 as necessary until no air bubbles are present.

7. **It is not necessary to ship by an overnight delivery service. 2nd day delivery is sufficient. Cost of shipping samples to the laboratory is at your expense. NTL offers discounted UPS shipping, if interested call for a quote or to obtain your label**

Testing Location: **National Testing Laboratories, Ltd.**  
**556 South Mansfield Street**  
**Ypsilanti, MI 48197**

PLEASE NOTE: Testing takes approximately 10 business days from receipt of the samples. Results can be emailed or faxed (if provided an email address or fax number).

If you have any questions regarding this Glyphosate Test or any other services we provide, please contact a Technical Service Representative at National Testing Laboratories at 1-800-458-3330 for assistance.

Thank you for choosing National Testing Laboratories, Ltd., for your water testing services!
