

LETTER OF RECIPROCAL CERTIFICATION

November 28, 2018

Christine MacMillan
National Testing Laboratories, Ltd.
556 South Mansfield Street
Ypsilanti, MI 48197-5166

Dear Christine MacMillan:

The Chemistry Laboratory, ISDH Laboratories, Indiana State Department of Health, has reviewed your request to become a certified laboratory for chemical analyses of drinking water in the state of Indiana, pursuant to the requirements under the Safe Drinking Water Act (SDWA) 42 U.S.C. 300f *et seq.*, the National Primary Drinking Water Regulations (NPDWR) 40 CFR 141 and 142, and the Indiana Primary Drinking Water Regulations (IPDWR) 327 IAC 8-2. Your submittal package contained certification information for the state of Michigan, citing on-site inspections and the analysis of water supply (WS) proficiency testing (PT) samples from a Michigan approved proficiency testing program.

Based on Indiana's policy of approving laboratories that are certified for drinking water analyses by states whose programs are approved by USEPA, and based on the results of the WS studies provided, the ISDH issues the following determination, pursuant to IC 4-21.5-3-5:

- The laboratory is hereby granted full certification for: *antimony, arsenic, barium, beryllium, cadmium, chromium, fluoride, mercury, nickel, selenium, thallium, copper, lead, uranium, nitrate, nitrite, the regulated volatile organic compounds (VOC), vinyl chloride, trihalomethanes (THM), bromate, chlorite, haloacetic acids (HAA5), 2,4-D, 2,4,5-TP (silvex), alachlor, atrazine, benzo(a)pyrene, carbofuran, chlordane, dalapon, 1,2-dibromo-3-chloropropane (DBCP), di(2-ethylhexyl)adipate, di(2-ethylhexyl)phthalate, dinoseb, diquat, 1,2-dibromoethane (EDB), endoHall, endrin, glyphosate, heptachlor, heptachlor epoxide, hexachlorobenzene, hexachlorocyclopentadiene, lindane, methoxychlor, oxamyl (vydate), pentachlorophenol, picloram, simazine and toxaphene (as indicated on the Michigan certification letter or certificate).*
- The laboratory has been assigned laboratory number C-MI-06. This identification number is to be used on all reports for compliance monitoring of public water supplies to the Indiana Department of Environmental Management.

The expiration of Indiana certification will be the date that the laboratory's Michigan certification expires (**November 6, 2021**).

The status of Indiana certification will be reviewed, and if necessary, downgraded by Indiana, when: [1] an on-site evaluation by Michigan is completed and a report of unsatisfactory performance is submitted by Michigan to the Indiana certification officer; or [2] the laboratory does not successfully analyze one (1) WS PT sample annually; or [3] the laboratory does not pay yearly Indiana laboratory certification fee.

In addition, the laboratory is required to provide the certification officer with the following documents, as they become available: [1] any change in certification status or expiration date of Michigan certificate, and [2] reports of WS PT sample analysis.

If you wish to seek review or stay of the effectiveness of this determination, pursuant to IC 4-21.5-3-7, you are required to submit, in writing, a petition, on or before December 28, 2018, to:

Office of the Secretary
Indiana State Department of Health
2 North Meridian Street
Indianapolis, IN 46204

The petition for review or stay must include facts demonstrating that:

- The petitioner is a person to whom the determination is specifically directed;
- The petitioner is aggrieved or adversely affected by the agency determination; or,
- The petitioner is entitled to review under any law.

Questions concerning the certification status granted by this letter should be directed to Katie Sullivan, Chemistry Laboratory Certification Officer, 317-921-5505.

Dated at Indianapolis, Indiana, this 28th day of November, 2018.

Sincerely,

Judith C. Lovchik, PhD, D(ABMM)
Assistant Commissioner, Public Health Protection and Laboratory Services
Indiana State Department of Health
550 West 16th Street

LETTER OF RECIPROCAL CERTIFICATION

November 28, 2018

Christine MacMillan
National Testing Laboratories, Ltd.
556 South Mansfield Street
Ypsilanti, MI 48197

Dear Christine MacMillan:

The Indiana State Department of Health (ISDH), Environmental Microbiology Laboratory Certification Office, has reviewed your request to become an Indiana certified laboratory for the bacteriological analyses of public drinking water. Based on the submitted documents which include your most recent Michigan certification, evaluation report, corrective actions, recent Performance Evaluation (PE) results and QA/QC Manuals, and based upon the recommendation of the Water Microbiology Laboratory Certification Officer, the ISDH issues the following determination, in accordance with IPDWR 327 IAC 8-2:

- National Testing Laboratories, Ltd. is granted Indiana certification for the detection of total coliform and *Escherichia coli* by SM 9223B, enumeration of *Escherichia coli* by SM 9223 Multi-Well and the enumeration of heterotrophs by SM 9215B.
- This certification is valid until **November 6, 2021**, the corresponding expiration of your Michigan certification or until such time that the laboratory status change and the certifying authority of Michigan revokes the validity of the certification.
- The laboratory has been assigned identification number M-MI-03. This number is to be used on all compliance monitoring reports of Indiana public water supplies to the Indiana Department of Environmental Management

To maintain your Indiana certification, you are required to provide the following documents, as they become available:

- Updated Michigan certification status
- Yearly Indiana registration (submit at the beginning of the year).
- Annual PE study report (copy of the report should be sent directly to our certification office from the provider).

For further information, questions or if you need clarification regarding this certification please contact Katie Sullivan, ISDH Microbiology Laboratory Certification Officer at (317) 921-5505 or at KatSullivan@isdh.in.gov.

Sincerely,

Judith C. Lovchik, PhD, D(ABMM)
