[PRO ADVICE]

SUE FULLER

The president of the company Oliver Thomas—named after the cofounder, her Shih Tzu—designs practical (lightweight and washable) bags with names like Not a Trainwreck.

■ STREAMLINE

When you're running around all day, efficiency is everything. "My bag is full of things that do more than one job, plus travel-sizes like blush and powder," Fuller says. For quick touch-ups, try these individually wrapped blotter and powder blenders: Setz Blot & Translucent Powder (\$4 for five-pack; cvs.com).

■ BUT BRING DRAMA

Your day kit deserves the prime real estate, but save a spot in your case for makeup that can transition your look from day to night. "The one thing I change is my eye makeup. I love a smoky eye for evening and always keep an eye palette on hand," Fuller says. ■
