Twenty-eight-year-old Lin Hui Qi can see the dead, this resulted in her strange and eccentric behaviour. Things always end badly and she is not able to perform at work or even has a proper boyfriend. But all that starts to change when her mother Ke Hua passed away. Even in spirit, Ke Hua pestered and managed to convince Hui Qi to take over the reins of her funeral home. Initially reluctant for the fear of seeing even more spirits, she finally relented.

Hui Qi begins to find meaning in her work as she helps the spirits she meets fulfil their last wishes, even solving a homicide case along the way. She also attracts the attention of both You Peng and Hao Ming and is torn by her feelings towards the two men. As Hui Qi gains a deeper understanding of life and living through her encounters, she realises that to the departed, death marks the end of life, but to the living, it is the start of a new life.
