# OUR PRODUCTS

The parenting journey is a jumble of moments filled with pure joy, absolute disaster, years flying by while the minutes drag on and on, acts of heroism tempered by episodes of embarrassment and humility, mistakes, brilliance, unwavering confidence choked by mouthfuls of humble pie, and above all, love.

At Funny Parent Gifts, we understand how absolutely absurd the parenting process can be, as well as the necessity of being able to laugh at ourselves and crack up with our children while taking in every single precious moment. We are a company based in Austin, Texas, a magical place where you can take your kids dancing to live music whenever the mood strikes and insist that they can't have their pecan pie until they learn how to two-step properly.

We hope that you enjoy browsing our products and that they give you ideas on how to enjoy time with all of your babies, from the ones with stinky feet and sticky hands to the fur babies with muddy paws, wagging tails, and cat-itude.

**All designs have been created by and are solely owned and produced by Funny Parent Gifts.**

## **REST ASSURED THAT YOU ARE BUYING ETHICALLY!**

Funny Parent Gifts strongly believes that socially and ethically responsible conduct, good workplace and safety standards, fair pay, and care for the environment are important elements in business success. All of our products are manufactured following the highest ethical and humane standards and practices with certifications such as:
