

99.999%

# X-Oxide™

COMMERCIAL - RESIDENTIAL - HOSPITAL-GRADE

## DILUTE - EASY, EFFECTIVE & ECONOMICAL

**1:1** **Full Strength**  
Hospital Disinfectant  
Heavy-duty Odor Elimination  
Full-strength Mold & Mildew Elimination

**5:1** **Carpet Sanitation**  
X-Oxide™ is compatible with:  
- Most synthetic carpeting  
- Most cleaning machines

**9:1** **Food Contact Surfaces**  
No rinse required - 99.999% effective  
Kills E. coli & Staphylococcus in 30 seconds

## AVAILABLE SIZES

- 3 oz**  
Travel size w/ Finger Sprayer
- 32 oz**  
Bottle w/ Trigger Sprayer
- 1 Gallon**  
Jug w/ sealed cap

## TECHNOLOGY MAKES THE DIFFERENCE

X-Oxide™ utilizes a unique chemistry proven effective on a broad spectrum of viruses and bacteria - including potent bugs MRSA & H1N1. Leaves only a simple salt - no harmful residue.

X-Oxide™ maximizes effectiveness by utilizing a component that dramatically reduces its particle size. This helps in 2 important ways - (1) allows the active ingredient to more easily spread and permeate both hard and soft surfaces, (2) improves distribution from sprayers or foggers - to more effectively address airborne pathogens.

### TESTIMONIAL

"As the president of a microbiology testing lab, I see and evaluate new antimicrobial technologies often. After extensive testing, I can comfortably say that X-Oxide™ is one of the most exciting new technologies on the market. Its dual-active system clean well and is effective against a wide variety of pathogens - most importantly, it does the job quickly."

Ben D. Tanner, Ph.D.  
Pres., Antimicrobial Test Lab

### SAFE & EFFECTIVE

- US EPA Reg. No. 82972-1-95969
- NSF rated (D2) - No rinse required on food contact surfaces
- Non-corrosive - safe for marble, carpet, fabric, etc.
- Hypo-Allergenic - Allergen-reducing formula
- Balanced pH
- No offensive odor or taste
- Non-irritating to skin, no gloves required
- No special shipping requirements
- Stable shelf life (1 Year)

### X-OXIDE™ TESTED

- Used in emergency response to eliminate Norovirus outbreaks
- Clinical trials have shown a decrease of 95% in healthcare-associated infections of Acinetobacter spp in the hospital environment.
- Used in disaster response to eliminate mold and mildew from flood damage.
- University and government-sponsored studies document long-term effectiveness in eliminating mold and mold spores.
