

# KINGART® Brush Conversion for Loew-Cornell Brushes

## General Notes:

Why a comparison to Loew-Cornell brushes? For many decades Loew-Cornell brushes were regarded to be the gold standard and first choice for professional artists and hobbyists working in all media. While Kingart, founded in 2019 is a relatively new brand it is led by the 3rd generation of the Cornell family so our heritage and brush knowledge run deep and we remain steadfast in our commitment and passion to providing quality materials that enhance your creative pursuits. Loew-Cornell Inc. was sold by the Cornell family in 2004 and we understand their brushes are no longer being manufactured. The good news is you will find many Loew-Cornell equivalents as well as some updated selections in Kingart's premium brush range. Use the table below to match Kingart brushes to Loew-Cornell brand brushes and explore [www.kingartco.com](http://www.kingartco.com) to see the complete Kingart range of fine art materials.

## Brush Line Overview:

**Kingart Original Gold series 9000\* Golden Taklon** brushes are equivalent to **Loew-Cornell LaCorneille Golden Taklon 7000 series**. \*Kingart 9000 series also includes specialty brushes. These are either the same hair as past Loew-Cornell brushes or may be a more updated synthetic, animal friendly alternative. Brushes using a different hair are denoted with an \*asterisk.

**Kingart Precision 2000 series** brushes are equivalent to **Loew-Cornell Comfort handle 3000 series** brushes.

**Kingart Gold Grip White Nylon 7900 series** brushes are equivalent to **Loew-Cornell White Nylon 700 and 800 series** brushes.

**Kingart Radiant 6000 series** are equivalent to **Loew-Cornell American Painter 4000 series** brushes.

**Note: Our brush line is always evolving so please check [Kingartco.com](http://Kingartco.com) for the latest available range.** Certain Loew-Cornell brush sizes not included in this listing may be part of Kingart Brush Sets.

Additional **Kingart Premium Brush Lines** include: **Equinox** - Synthetic squirrel for superb absorbency in light water media and **Finesse** - fine taklon filaments designed to mimic the finest sable with excellent spring and absorbency for watercolor and blending in oil.
