

Tudor Top Hinged Instructions

Getting Started

Things you may need:

Wood Glue, white glue, or super glue

Razor Blade to trim sprues

Stain pens, or brown marker (edge touch up)

Rubber Mallet

We recommend gluing parts together to add strength to your dice tower. Pieces that have been painted prior to assembly can be glued using a gel superglue.

Before removing pieces from panels make sure that the laser has cut all the way through the panels. Use a razor knife to cut through the wood gently scoring it until the cut breaks through. Use caution to avoid cutting yourself. Never place hands or body parts in the line of your cut.

Tudor Top Hinged

1.) Locate the tudor top panel

2.) Gently twist / push pieces out of their wooden panel and arrange them so that they are easily visible

3.) Locate the inner frame pieces

4.) Attached the small notched teardrop shaped piece to the top of the arch piece.

Tudor Top Hinged (cont...)

5.) Insert the arched piece into the base frame as shown.

6.) Locate the hinged roof pieces

7.) Attach one hinge into the base and loosely attach another hinge to the roof. (Tip) - we recommend gluing the hinges to the **base** for strength.

8.) Align the second hinge with the base and firmly press into place.

Tudor Top Hinged (cont...)

9.) Repeat steps 7 and 8 to attach the other hinged roof panel.

10.) Locate the bottom frame pieces

11.) Turn the assembly on its side and attach two of the same frame pieces to the corresponding joints as shown.

12.) Attach the other two bottom frame pieces as shown.

Tudor Top Hinged (cont...)

13.) Locate the two remaining roof pieces.

14.) Press the roof pieces onto the corresponding tabs of the center arch.

15.) The complete top should look like the picture shown left and below. The two hinged roof pieces should open and close freely.
