

How to Use Quartz Chamber

The Quartz chambers transforms your Quant dry herb vaporizer into a 3 in 1 use. Ideal for customers looking to vape their favorite concentrates or wax.

How to use:

1. Remove silicone cap
2. Load the quartz chamber $\frac{1}{4}$ full
3. Reattach silicone cap
4. Insert into heating chamber
5. Crank Up temperature to 430F
6. Wait for 140sec on the timer
7. Start vaping!

Warning:

To avoid leakage, do not overload the quartz chamber and always keep device upright when vaping (Concentrate & wax liquids are subject to gravity).

To avoid quartz chamber getting stuck in device, remove immediately after use, whilst still hot. Ensure you use tweezers (as supplied).

Buying replacements:

Quartz chambers can be purchased online and available in 2packs.

Hope you enjoy your Quant Vapor purchase :)

Best regards

The Quant Vapor Team
