

BOMBERS BLUE DRESSAGE LEGAL BITS

Bomber Blue B18/10

Bomber Blue B16/09

BOMBER BLUE

BARS

PINCH

TONGUE

OVERALL

SOLID

The mouthpiece is fixed between cheek pieces, offering tongue relief in the form of a port.

The Bomber Blue is a unique bit which produces amazing results for the majority of horses. The mouthpiece is ported to give tongue relief. The nylon composite material is light in the mouth and encourages salivation. It is particularly well suited to horses that object to metal mouth pieces.

APPROVED IN THE FOLLOWING SINGLE BRIDLE CHEEK PIECES ONLY

Eggbutt

Loose Ring

SIZING

135mm +	The B18/10 Bomber Blue to offer the maximum tongue relief. If in doubt go with the B16/09 to ensure a good fit.
135mm -	The B16/09 has been designed for the horse with a narrower jaw, this ensures accurate fitting over the bars and eliminates the rocking movement which occurs when the port is too wide.

EQUESTRIAN AUSTRALIA
