

# EASIFLEX™ HA

## Liquid Sodium Hyaluronate

ACTIVE CONSTITUENT: 200mg/30mL Hyaluronic Acid (MW 1-1.25 million daltons)

EASIFLEX™ HA contains high molecular weight sodium hyaluronate which has anti-inflammatory properties, helps to maintain joint fluid elasticity and cartilage health, and aids in the lubrication of joints.

- **HIGH QUALITY**

Each 15mL dose contains 100mg of top quality, high molecular weight Hyaluronic Acid

- **LIQUID FORMULATION**

EASIFLEX™ HA is a liquid formulation which mixes well with horse feed.

- **APPLE/STRAWBERRY FLAVOUR**

Contains an apple/strawberry flavour which horses love.

- **EASY TO USE**

Both the 1L and 5L packs come with own dispensing cap.

- **PUMP PACK**

The 5L pack comes with a convenient 15mL pump pack.

*I have been feeding EasiFlex™ HA to my Eventers for the past 5 years. My 4-Star horse, Superclass is a testament to that, running consistently up the grades for 5 years to 4-Star level barely missing an event. EasiFlex™ HA is palatable and super easy to feed, my horses love it! The 5L size is very economical and comes with a handy pump dispenser which is very convenient given I am treating multiple horses daily.*

**Merran Wallis – 5\*Eventer**
