

410W Solar Panel Warranty

12-Year Workmanship Warranty

This ExpertPower warranty extends for a period of twelve years commencing on the Warranty Start Date. Warranty Start Date begins when Buyer receives the product and exceeds the 90 day return period as stated on our return policy. The product will be free from defects in workmanship such as design, material, internal functionality, or external manufacturing that materially or internally impedes the products over all intended use, and will conform to the specifications and the intended design applicable thereto. Any deterioration in appearance of the product, including any scratches, stains, mechanical wear, rust, mold, optical deterioration, any deterioration in color or other superficial changes, which occur after delivery to Buyer is considered normal wear and tear and or neglect in upkeep and shall not qualify as a defect hereunder - except if, and to the extent such that, the deterioration results in a material or internal impairment which causes the overall intended function of the product to cease. A claim in the event of glass breakage and or distortion of the frame arises only to the extent that there was no external cause of the glass breakage or frame distortion - this includes accidental blunt force trauma with any object/debris or body part, hail or any natural disaster, fall damage due to handling of the product (intentional or accidental), and or improper installation - this includes installation on improper, irregular, or damaged surfaces, and installations not done by a licensed professional.

PLEASE NOTE: There are products that can be purchased separately to prevent damage caused by natural disasters such as hail. The effectiveness of those products in preventing such damage is the responsibility of the Buyer and can help, in most cases, retain your warranty by preventing natural disaster damage. However, this will not extend or help Buyer claim warranty repair or replacement under our warranty if such products fail and damages still occur. Please refer to the damage prevention product warranty and liability for assistance should such a situation occur.

25-Year Limited Power Output Warranty

ExpertPower warrants that for a period of twenty-five years commencing on the Warranty Start Date loss of power output of the nominal power output specified in the relevant Product Data Sheet and measured at Standard Test Conditions (STC) for the Product(s) shall not exceed: 90% output in the first 12 years and 80% output in total 25 years after the Warranty Start Date.
