SECTION 5: FIREFIGHTING MEASURES

5.1 Extinguishing media

Suitable Extinguishing mediaWater spray, foam, dry chemical or carbon dioxide.Unsuitable extinguishing mediaWater jet – risk of spreading the fire.

5.2 Special hazards arising from the substance or mixture

During the combustion, harmful gases and vapours containing carbon oxides may be formed. Avoid breathing combustion products, because they can be hazardous to health. During the fire, a fast and uncontrolled reaction of polymerization may take place, as a result of which an explosion may occur, as well as rapid cracking of storage tanks.

5.3 Advice for firefighters

Wear self-contained breathing apparatus and appropriate protective clothing. Cool containers with water spray. Do not allow extinguishing water to enter drains, surface water and ground water.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

Avoid skin and eye contamination. Wear suitable protective equipment. Avoid breathing vapours. Ensure adequate ventilation. Eliminate all ignition sources.

6.2 Environmental precautions

Do not allow product to enter drains, surface water, ground water and soil.

6.3 Methods and material for containment and cleaning up

Absorb with sand, diatomaceous earth or vermiculite. Collected material transfer to tightly closed and appropriate labelled containers for disposal. Clean contaminated area with water.

6.4 Reference to other sections

Personal protection - see Section 8. Waste disposal - see Section 13.
