SECTION 4: FIRST AID MEASURES

4.1 Description of first aid measures

Inhalation Move to fresh air and take a rest / remove victim to fresh air and keep at rest.

Get medical attention if any discomfort continues.

Skin Contact Remove contaminated clothing immediately and wash skin with soap and water.

If irritation or rash occurs, get medical attention promptly.

Eye ContactRinse with plenty of water for at least 15 minutes and get medical attention. **Ingestion**Do not induce vomiting. If person is conscious, rinse mouth with water. If you

feel unwell, get medical attention.

4.2 Most important symptoms and effects, both acute and delayed

Skin May cause skin irritation. May cause an allergic skin reaction. The following symptoms may occur:

contact: irritation, redness, rash.

Eye May cause eye irritation. The following symptoms may occur: irritation, redness, watering.

contact:

Ingestion: The following symptoms may occur: soreness and redness of the mouth and throat.

Inhalation: No specific symptoms are known.

4.3 Indication of any immediate medical attention and special treatment needed

Physician makes a decision regarding further medical treatment after thoroughly examination of the injured. Symptomatic treatment.

SECTION 5: FIREFIGHTING MEASURES

5.1 Extinguishing media

Suitable Extinguishing media Water spray, foam, dry chemical or carbon dioxide.

Unsuitable extinguishing media Water jet – risk of spreading the fire.

5.2 Special hazards arising from the substance or mixture

During the combustion, harmful gases and vapours containing carbon oxides may be formed. Avoid breathing combustion products, because they can be hazardous to health. During the fire, a fast and uncontrolled reaction of polymerization may take place, as a result of which an explosion may occur, as well as rapid cracking of storage tanks.

5.3 Advice for firefighters

Wear self-contained breathing apparatus and appropriate protective clothing. Cool containers with water spray. Do not allow extinguishing water to enter drains, surface water and ground water.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

Avoid skin and eye contamination. Wear suitable protective equipment. Avoid breathing vapours. Ensure adequate ventilation. Eliminate all ignition sources.

6.2 Environmental precautions

Do not allow product to enter drains, surface water, ground water and soil.

6.3 Methods and material for containment and cleaning up

Absorb with sand, diatomaceous earth or vermiculite. Collected material transfer to tightly closed and appropriate labelled containers for disposal. Clean contaminated area with water.

6.4 Reference to other sections

Personal protection – see Section 8. Waste disposal – see Section 13.

SECTION 7: HANDLING AND STORAGE

7.1 Precautions for safe handling

Avoid skin and eye contamination. Do not eat, drink or smoke when using this product. Avoid breathing vapours. Product is sensitive to UV radiation – avoid exposure to sunlight. Keep container closed when not in use. Remove contaminated clothing immediately. Wash contaminated clothing before reuse. Wash skin thoroughly with soap and water after handling.

7.2 Conditions for safe storage, including any incompatibilities

Store in tightly closed original container in a dry, cool and well-ventilated place. Keep away from heat, sparks, open flames, hot surfaces. Protect from light. Store at temperatures between 5°C and 40°C. Avoid temperatures above 60°C.

Stable under normal conditions. Storage life
