DE: WARNUNG: Nicht um den Mund oder die Augen auftragen. Sofort abspülen, wenn das Produkt damit in Kontakt kommt. Nur unter Aufsicht von Erwachsenen verwenden.

Farben und Inhalt können von den Abbildungen abweichen. Bitte bewahren Sie die Verpackung zum späteren Nachschlagen auf. Kann leicht mit Wasser und Seife abgewaschen werden.

Decorate Your Own Unicorn Piggy Bank – Craft Kit

Our **Unicorn Piggy Bank Craft Kit** has everything you need to create your very own personalized Unicorn Piggy Bank! Make saving fun!

Happy decorating! Don't forget to share your design on social media and tag us **@PLBfun**

Inside, you'll find:

- 1 Porcelain Unicorn Piggy Bank
- 2 Sheets of Transfer Designs (No Glue or Water needed)
- 2 Pots of Glitter for Transfers (Gold and Pink)
- 1 Glitter Applicator Brush
- 5 Sheets of Foil Transfer Films

Instructions:

For optimal results whilst decorating your Unicorn Piggy Bank, follow the instructions and tips below.

TIP: For instructional videos, tips and tricks for our products, follow us on social media (@PLBfun).

The Unicorn Piggy Bank

Decorating the Bank

The Unicorn Piggy Bank is made of porcelain – please handle with care as it can break!

Take care to always place the Piggy Bank on a flat surface, away from edges or areas where it can be bumped and knocked over.

When decorating your piggy bank, it is best to work on a flat surface with plenty of space around you.

Emptying the Bank

To empty the Piggy Bank when it is full, simply flip the Piggy Bank over, and lift the edge of the rubber cap, and pull gently around the edge. It will pop off.

After emptying, place the rubber cap back on by working it around the edge of the access hole.

This step requires adult supervision.

Transfer Designs (for Glitter & Foil Transfer)

Our transfers are very unique! – No water or messy glue or stencils needed! The transfer designs apply like a sticker that is sticky on both sides. The glitter is applied on top of it. We recommend you don't place transfers in high use areas that are touched often, as this will make them wear out faster.

How to Apply Transfers

Applying the design:

This is the sticky part that you'll put the glitter or the transfer film onto later. Think of this as a double-sided sticker. First you'll stick it to the surface, then peel the top protective layer, and apply the finish (either Glitter or Transfer Film).

1. If on a smooth surface, make sure the area is clean and free of any moisture, grease, or dirt. (Any moisture, grease or dirt will cause the transfer to not stick properly).
2. Using scissors, cut out the desired design from the film sheet. (The transfer designs have a slight pink tone to make it easier to see and place – this does not affect the final design).
3. Carefully remove the white layer from the transfer and discard. You'll be left with the transfer sticker on the clear backing.
4. Flip over and apply to desired location. Press and rub the clear layer so that the transfer adheres to the skin or intended surface.
5. Gently peel away the clear top layer to reveal the sticky transfer. (be careful not to touch it or rub it, so it doesn't lose its stickiness).

Applying the glitter:

1. Open up the desired glitter color pot (make sure to keep it right side up so as to not spill!).

TIP: On first use, remove the small plastic layer inside the pot (used for shipping only)

2. Using the small applicator brush with a scooping motion, scoop the desired amount of glitter onto the sticky transfer surface.

TIP: Do not brush sticky transfer surface without any glitter on it, it may reduce the stickiness).

3. Use the applicator brush to spread the glitter over the transfer design.

TIP: You can use multiple colors on the same design. If using multiple colors, wipe applicator brush with a cotton wipe to remove glitter from the brush before changing colors.

4. Brush off excess glitter very gently with a tissue.

TIP: You can use multiple colors on the same design. If using multiple colors, wipe applicator brush with a cotton wipe to remove glitter from the brush before changing colors.

Applying foil transfer film:

1. After applying the transfer sticker, place the foil sheet over the sticker (dull side down) and use your finger to smooth and rub down the foil over the design.
2. Once the foil has been smoothed over the sticky areas, peel back the sheet gently, and the sheet will peel away while leaving foil adhered to the design underneath.
3. For best results, use foil on the larger designs.

NOTE: You can apply multiple colors of foil or glitter to each design, and even mix and match it (use the transfer foil first) The foil sheet can be used multiple times.

To remove the transfer, gently rub with a damp soapy towel.

DO NOT PLACE TRANSFERS, STICKERS, GLITTER OR FOIL NEAR EYES, NOSE, OR MOUTH.
