## Pumpkin Spice Play dough

### Ingredients;

- 2 cups flour
- Glug of oil
- 1 cup of Warm water
- Paint or food colouring
- Spices (cinnamon, ginger
- , nutmeg, clove)

Add your flour to a bowl, add in your paint or food colouring, oil and spices of your choice. It's important this is done before adding in the warm water.

Add warm water slowly until everything comes together to form a smooth dough. By adding it a little at a time means you can control the consistency.

By making your play dough this way means your little ones can get involved. Building mathematical skills, motor skills and building confidence. As well as it being a shared activity - brilliant for bonding!

Add to a tray or straight onto the table and accompany with rollers, cutters, baking tins or anything else you can find in your cupboards. It will keep in the fridge for a few days if wrapped up in a sealed tub.

## Autumn Walk Bracelet/bag

Things needed;

Sticky back plastic /sellotape or a bag

Cardboard

Make yourself a 'Sticky' bracelet using your cardboard and sticky tape. Head to a park/woodlands and put them on before you get there. As you walk pick up items of interest and add them to your bracelets.

This activity can easily be done using just a simple bag too! Collect items as you go round and add them to your curiosity bag.

When you get home explore what you have found. You could add them to your play dough, do printing with them, make a collage/picture.

## Leaf cutting

### Things needed;

- Dried fallen leaves
- Safety scissors

Head out to the park together and collect some fallen autumn leaves. Take them home and dry them out. Add them to a play tray and accompany with safety scissors for the children to cut up.

Perhaps you could draw a hedgehog outline on a pieces of paper and the children can stick their leaf pieces into it to make the spikes.
