

SAPELO SKIN CARE

Science and Nature in Harmony The Power of Ingredients in Sapelo Skin Care

At Sapelo, we believe in harnessing the power of science and nature to create effective skincare solutions. Our scientific research delves into the mechanisms behind skin rejuvenation techniques. This deep understanding has informed the development of our unique blend of ingredients. Sapelo products are formulated with a complex of peptides, amino acids, vitamins, minerals, and other beneficial nutrients. These ingredients work together to stimulate and build new skin.

HERE IS WHAT SETS OUR SCIENCE APART

- **Scientifically Inspired:** Our approach is grounded in scientific research on skin health and renewal processes.
- **Clean Ingredients:** We leverage the power of nature's beneficial ingredients to create nourishing and effective skin care.
- **Anti-Inflammatory:** Our focus is on supporting your skin's natural renewal processes **without causing inflammation.**

Science & System Overview

2-Step Recovery Capsule Set

Product Line-up + Size + Pricing

Individual Product Fact Sheets

"The original Sapelo mission - Can a woman or man get improvement in the skin and a better cosmetic look without injuring the skin? How do we create a skincare regimen that doesn't involve damaging the skin? If you understand how a retinoid works, then you can understand how Sapelo works. Our products replicate the immune system response to retinoic acids but without the chemical burn. The immune system response is your body's natural and innate healing process."

- *Dr. John Duttonhaver*

SCIENCE & SYSTEM OVERVIEW

Sapelo Multifunctional Skin Care Technology

Healing and aging have a lot in common. Researching the science behind common clinical skin rejuvenation and resurfacing strategies, Sapelo scientists learned that these strategies induced ‘controlled inflammation’ – an immune system response to injury. For two years, we delved into nature’s complex Immune System Response – our body’s natural healing process. Sapelo’s unique science mimics the body’s healing cascade of peptides, amino acids, vitamins, minerals, and other micronutrients. Our approach is to heal and regenerate the skin without causing inflammaging in the skin.

2 Immune Response Pathways to Skin Renewal

- 4 to 12 weeks, or more to repair
- Post-Tx Appearance is negatively impacted
- All other resurfacing methods must be curtailed
- Taking care of your skin after TX is critical to protect your skin from damage as it heals and ensure optimal outcomes

- Improved results from initial treatment
- Post-Tx Appearance is improved
- Pairs well with other resurfacing methods
- Regular use continues to trigger the immune response cascade and ensures the sustained optimal health and appearance of skin

Our Innovative 2-Step Recovery Capsule Set scientifically replicates the Immune System Response through a sophisticated delivery system that distributes the scientifically proven ingredients that trigger the same response to injury but **without injury or inflammation**.

2-STEP RECOVERY CAPSULE SET OVERVIEW

Step 1 - Renewing Serum (Silicone Free) | 1.7 oz (50ml)

4 HA's • 2 Stem Cells • 3 Amino Acids • Coenzyme A

Hydration is the first cosmetic benefit for skin. The Renewing Serum is a critical foundation for our capsule set.

Youthful skin is a result of healthy, active cellular reproduction at the DEJ - our serum was scientifically developed to deliver the essential molecules to this critical juncture.

Designed to completely soak the epidermis, basal layer and underlying dermis, the serum creates a FLOOD TIDE in the extracellular matrix (ECM) with intense moisturizing and repairing ingredients that work to renew and heal the skin. Its purpose is to deliver biologically active molecules to the place where new skin, collagen, elastin and HA cells are made.

STEP 1

Featuring four (4) different and carefully weighted HA molecules, at 4% concentration. The HA's offer enhanced skin penetration and hydration.

Four HA's work for the health of skin in three different ways.

- Creates protective film to retain surface hydration.
- Protect from TEWL aggressors, stimulate procollagen synthesis & reinforce tight junction in the epidermis.
- Boosts cellular repair and wound healing.

With the channels in the ECM fully saturated, the serum provides space for active ingredients and skin cell motility. The skin will welcome and absorb the cascade of powerful and purposeful skin healing ingredients in **Step 2: Rejuvenating Cream.**

2 Piece Set Wholesale: \$250 | Retail: \$500

2-STEP RECOVERY CAPSULE SET OVERVIEW

Step 2 – Rejuvenating Cream (Silicone Free) | 1.7 oz (50 ml)

6 Peptides • 2 HA's • 8 Minerals • 3 Vitamins • 3 Ceramides • 1 Stem Cell

With the channels in the ECM now fully saturated, the skin will welcome and easily absorb the cascade of powerful and purposeful skin-building ingredients of the Rejuvenating Cream-Step 2.

Developed to stimulate collagen, elastin, keratin, fibroblasts and skin cell density without causing inflammation. The cream is meticulously formulated to support the skin in every aspect of renewal. The ingredients in step 2 are the catalysts that stimulate cell growth and provide the building blocks for an optimized team – one that supports cellular health and functionality for skin that glows with vitality. The cream's 60 ingredients replicate the body's natural healing cascade of peptides, vitamins, minerals, and micro-nutrients that your body releases to heal and repair.

STEP 2

Featuring (6) peptides that provide a powerful cocktail for cell stimulation. As we age, skin cells' metabolism becomes progressively weaker. Our unique blend of peptides works with microRNA and DNA to create more skin cells and HEALTHIER skin cells. Cell turnover is prolific without the use of acids that dry skin and trigger an immune response.

- Tetrapeptide-40: Inhibits inflammation, reduces collagenase & improves collagen.
- Palmitoyl tripeptide-1, Palmitoyl tetrapeptide-7: Anti-wrinkle, UV damage reversal, restores cell metabolism.
- Hexapeptide-11: Firming, wound healing, upregulates 5 cellular functions.
- Cyclotetrapeptide-24 aminocyclohexane carboxylate: Triggers cell communication, increases elastin, laminin & collagen.
- Acetyl tetrapeptide-5: Reduces puffiness, improved circulation – the eye peptide.
- Oligopeptide: Enhances cell turnover, stimulating renewal of younger cells.

2 Piece Set Wholesale: \$250 | Retail: \$500

RENEWING SERUM

Plump • Tighten • Firm (Silicone

Step 1 of the Recovery Capsule Set | WHOLESale \$130

Hydration is the first cosmetic benefit for skin. The Renewing Serum is a critical foundation for our skin care products. Youthful skin is a result of healthy, active cellular reproduction at the DEJ - our serum was scientifically developed to deliver the molecules in all of our products to this critical juncture.

Designed to completely soak the epidermis, basal layer and underlying dermis, the serum creates a FLOOD TIDE in the extracellular matrix (ECM) with intense moisturizing and repairing ingredients that work to renew and heal the skin. Its purpose is to deliver biologically active molecules to the place where new skin cells are made.

Four (4) different and carefully weighted hyaluronic acid molecules, at 4% concentration. The HA's significantly contribute to cell proliferation and migration by creating pockets of moisture throughout the ECM. The serum delivers a carefully selected blend of cell-stimulating growth factors and micro-nutrients required for healthy skin rejuvenation including:

- Increase collagen and repair elasticity, firmness and skin cell density.
- Corrects and disposes senile pigmentation.
- Unrivaled protection of the collagen system.
- Replenishes skin cells through an innovative microRNA mechanism.

Due to the absorptive properties of the serum, the stem cells flow in abundance throughout the seven (7) layers of skin and signal the daughter cells to start making new, healthy cells. The skin will absorb the cascade of powerful and purposeful skin healing ingredients in the step two - Rejuvenating Cream.

Application: Apply one pump thoroughly over face and neck. Use morning and night.

RENEWING SERUM

KEY INGREDIENTS	BENEFITS
Sodium Hyaluronate - #1 (Largest molecule)	Skin's water balance is preserved, TWEL is limited. High molecular weight acts as a water reservoir, protecting skin from external aggressions, maintaining a healthy skin barrier.
Hydrolyzed Hyaluronic Acid - #2 (Medium molecule)	Reinforcement of the skin's natural defense and wound healing. Reinforces the natural immune system by stimulating the release of specific antibacterial peptides. Stimulates the keratinocytes and fibroblasts proliferation & migration to accelerate the cellular repair process.
Hydrolyzed Hyaluronic Acid - #3 (Smallest molecule)	Skin hydration & firmness through tight junction reinforcement. This molecule size provides in-depth moisture - it penetrates down to the DEJ, preventing TWEL. After 28 days, 66% reduction in skin roughness & 21% increase in skin firmness.
Hyaluronic Acid - #4	Combined with Chondrus Crispus (see below)
Sodium Hyaluronate + Hydrolyzed Hyaluronic Acid + Hyaluronic Acid (all 4 HA's together)	Increased firmness by 21% thru procollagen 1 synthesis; Reduced skin roughness by 66% in 28 days, Cellular repair thru fibroblasts & keratinocytes proliferation and migration.
Chondrus Crispus Molecule combined with an HA	Rare marine biopolymer combined with a bio-derived HA. Together they make long chains that form coils that trap water in their structure, providing natural reservoirs for hydration. Over 21-hour period, absorbs and retains more water than any other marine hydrocolloids. Over 4-hour period provides 3-times more water than other hydrocolloids. Hydrating & moisturizing.
Gardenia Jasminoides Meristem Cell Culture (stem cell)	Boost collagen, Reduce collagen degradation, Inhibit collagenase synthesis. Double collagen protection at 72 hrs., inhibits collagenase by 94%, promotes collagen neo-synthesis by 33%
Plantago Lanceolata Leaf Extract (stem cell)	Visibly fades signs of skin cell senescence through microRNAs inhibition - restarts the protein synthesis to prevent cellular senescence and ECM breakdown. 1 month in vivo: repairs loss of firmness by 30.8%, elasticity by 22.6%, thickness & density restored up to an age gain of 6 years. 2 months in vivo: melanin content of the SC down 26%, luminosity on normal skin + 12.2%, luminosity on pigmented skin +31.7%. In vitro: cellular senescence decreased 54 to 34%, reduced inflammation up to 91%, stimulated collagen I by 385% and elastin by 163%.
Panthenol	Coenzyme A is ubiquitous and essential cofactor in all living cells. Notable for its role in the synthesis and oxidation of fatty acids, and the oxidation of pyruvate in the citric acid cycle.
Magnolia Sieboldii Extract	Brightens dull skin via antioxidant + anti-inflammatory activity. Inhibits UV-induced pigmentation and post-inflammatory hyperpigmentation.
Pseudoalteromonas Ferment Extract	Anti-aging marine extract, skin regeneration and wound healing, restores hydration, preserves skin's natural barrier function (21.8% increase in hydration in 24 hrs.; 90% increase in 14 days) contains 3 natural amino acids for skin regeneration
Pinus Pinaster Extract	Natural antioxidant with strong free radical-scavenging activity
Niacinamide	Vitamin D, antioxidant, prevents apoptosis (programmed cell death)
Calcium Ketogluconate	Increases production of HA & elastin by 30%

REJUVENATING CREAM

Stimulate • Build • Sustain

Step 2 of the Recovery Capsule Set | WHOLESALE \$120

With the channels in the ECM now fully saturated, the skin will easily absorb the cascade of powerful and purposeful skin building ingredients of the Rejuvenating Cream. Developed to improve collagen, elastin, keratin, fibroblasts and skin cell density **without causing inflammation**. The cream is meticulously formulated to support the skin in every aspect of renewal. The ingredients are the catalyst that stimulate cell growth and provide the building blocks for an optimized team that supports cellular health and functionality for skin that glows with vitality.

The cream’s 60 ingredients replicate the body’s natural healing cascade of peptides, vitamins, minerals, and micro-nutrients that your body releases to heal and repair. Peptides offer zero benefit to skin unless there is a multitude of critical molecules surging through the ECM for building the new cells. Flowing on the moisture channels created by the Renewing Serum, the cream launches 60 ingredients down to the DEJ, giving your skin all the building blocks it needs for optimum development, 24 hours a day.

Key Actions: Six (6) peptides provide a powerful cocktail for cell stimulation. Our unique blend of peptides works to encourage cell turnover without the use of any acids that dry skin and trigger an immune system response.

Application: Apply a pea sized amount of cream to face and neck, after application of serum. Use morning and night.

6 KEY BIOACTIVE PEPTIDES	BENEFITS
Tetrapeptide-40	Inhibits inflammation, reduces collagenase & improves collagen
Palmitoyl tripeptide-1, Palmitoyl tetrapeptide-7	Anti-wrinkle, UV damage reversal, restores cell metabolism
Hexapeptide-11	Firming, wound healing, upregulates 5 cellular functions
Cyclotetrapeptide-24 aminocyclohexane carboxylate	Triggers cell communication, increases elastin, laminin & collagen
Acetyl tetrapeptide-5	Reduces puffiness, improved circulation – the eye peptide
Oligopeptide	Enhances cell turnover, stimulating renewal of younger cells

NOURISHING SOFT CREAM

Skin Barrier Restoration

WHOLESALE \$59.50 | 1.7oz

A soft cream that nourishes with advanced skin plumping technology. Specially crafted to provide optimal moisture and strengthen skin with powerful, healing molecules, this delicate cream is formulated for combination, oily and youthful skin. It is both soothing and cooling to the face. Packed with active ingredients, this silky, soft cream is formulated to instantly dissolve into the skin, resulting in a beautiful, soft glow.

Suitable for all skin types as a day cream or for oily/combination skin as a day and night cream. This nourishing cream effectively hydrates and moisturizes the skin while also neutralizing free radicals such as UV damage and pollution. Additionally, it brightens the skin and helps maintain a healthy skin barrier function.

- Hydrate and moisturize
- Neutralize Free Radicals
- Brighten Skin
- Maintain Healthy Skin Barrier Function

Application: Smooth a pea sized amount over face and neck. Use after serums and before oils.

KEY INGREDIENTS	BENEFITS
Palmitoyl Tripeptide-1	Accelerates production of elastin, collagens 1,4,7, & 17 and supports lamina structure and microRNA – blocks and reverses UV damage.
Palmitoyl Tripeptide-7	Proven to reduce factors that trigger irritation and damage, while restoring a firmer feel and appearance of less lines.
Gardenia Stem Cells	Unique 3 level approach to collagen protection: boost collagen synthesis, reduces collagen degradation & inhibits collagenase synthesis.
Magnolia Oil Extract	Clinically proven skin brightening effect. Inhibits melanin formation and effective in post- inflammatory hyper-pigmentation inhibition.
Tocopheryl Acetate	Vitamin E that works as antioxidant.
Zinc PCA	Treats skin breakouts, reduces redness and promotes healing.
Sodium Hyaluronate	Skin's water balance preserved, TWEL is limited, high molecular weight acts as a water reservoir, protecting skin from external aggressions, maintaining a healthy skin barrier.
Ascorbyl Glucoside	Prevents formation of melanin by inhibiting tyrosinase (key cause of melanogenesis) at early stage. Reduction of total area of age spots by 14.2% after only 2 weeks and 21.2% after 3 months. Vitamin C inside a glucose molecule that keeps the molecule stable. Perfect for sensitive skin. Swiss Patent Pending.

AMPLIFY YOUR ROUTINE

Serums and oils to boost and perfect every complexion

Spring Tide Serum (30 ml)	Biologically active organic caviar extract
Restoring Eye Serum (30 ml)	Triple targeted for bags, circles and fine lines
Instant Impact HA Serum (15 ml)	Regenerative wrinkle filling experience
C Skin Activator (15 ml)	Pigment disrupter and melanin regulator
Softening Emollient (15 ml)	All natural and organic face oil

SPRING TIDE SERUM

Innovative, multipurpose skin care technology

WHOLESALE \$97.50 | 1oz

Formulated with a patented marine extract, Sapelo's Spring Tide Serum is the only skin care product containing this advanced skin care technology, developed for wound care management. Extracted from sustainable Norwegian salmon caviar, the extract's efficacy was scientifically documented in a Phase III Randomized Double-Blind Placebo Controlled Test - the most rigorous form of scientific testing.

The ingredient was proven to initiate reprogramming of differentiated cell and increase expression of collagens, elastin, hyaluronic acid and increase cell motility. Salmon eggs are rich in proteins, peptides, vitamins, minerals all offering anti-oxidative and anti-inflammatory properties, as well as, free amino acids, lipids, unsaturated fatty acids, substantial amounts of DNA and RNA, and lipids - all documented to be beneficial for skin. This **unique combination of active substances** works together to treat facial skin. The results: the ingredient significantly improved all parameters investigated - wrinkles, pigmentation, redness, brightness and hydration leading to a global improvement of facial skin. The extract revitalizes the skin by stimulating its own cells, reversing the classical feature of aging.

Tests were conducted at 1% and 5% concentration against a placebo with responses after 7, 14, 28 and 56 days. Significant responses shown after 72 hours. Efficacy of the extract was substantially stronger when applied at a concentration of 5% and also demonstrated increased results with prolonged time of treatment. The serum is formulated with 5% concentration of salmon caviar. There were no adverse reactions noted including irritation nor sensitization.

The Spring Tide Serum exerts its effects at the cellular and molecular level, making this all-in-one innovative cosmetic ingredient highly unique and efficient for age management and improvement of skin appearance.

Sapelo is the only brand to bring this bio-active, organic compound to the skincare market.

Application: Apply one pump at night to fingertips.

SPRING TIDE SERUM

In vivo—scientifically documented claims at 8 weeks versus placebo, 22 women aged 35–60 years

- Reduces fine lines & wrinkles by 32%; by inducing a 350% increase in collagen production and secretion and by enhancing elastin production by 120%, as well as by increasing recruitment of the same cells into the skin.
- Improves the balance of pigmentation (assessed by melanin index) by 27%, reduces skin redness by 21%, increases skin brightness by 6%, resulting in a smooth and healthy appearance of the skin.
- Increases skin hydration by 29%, global improvement of skin appearance, scored by blinded investigator where 59% showed 50% to 100% improvement.

In vitro—treatment of human cells

- Human collagen & elastin producing skin cells for 7 days induces a 4.5-fold increase in collagen secretion compared to control; untreated cells.
- Human collagen & elastin producing skin cells for 3 days induces a 2.2-fold increase in elastin production compared to control; untreated cells.
- Increase migration rate significantly after 20 hours treatment of human collagen & elastin cells in culture compared to control.

RESTORING EYE SERUM

Penetrating multi-tasker

WHOLESALE \$55 | 1oz

1 HA • 4 Amino Acids • 2 peptides • 2 Stem Cells • 2 Seaweeds • 5 plant extracts

Featuring two bio-active peptides, detoxifying botanical burdock, a mixture of antioxidants, and a host of nourishing plant extracts, this silky formula is easily absorbed into the skin for an ultra-hydrated and glowing effect. Circulation increases, capillaries are strengthened, and skin appears plump, well rested and firm. Studies indicate that after just 14 days of twice daily use, the appearance of bags under the eyes are reduced significantly, dark circles begin to fade, and the skin begins to regain elasticity. After 30 days of use, capillaries are strengthened and repaired, and the skin around the eyes appears brighter. Water-based delivery system allows for the penetration of bioactive ingredients without silicones or heavy lipids that sit on top of thin skin.

- Key Actions:
- Reduces Eye Bag Volume
 - Decreases Dark Circles
 - Improves undereye area
 - Strengthens the antioxidant defense system
 - Improves elasticity, smoothness, barrier strength and regeneration

Application: Apply one drop to eye area.

KEY INGREDIENTS	BENEFITS
Acetyl Tetrapeptide - 5	Reduces eye bag volume after 14 days, decreases appearance of dark circles, targets tissue deterioration
Sodium Hyaluronate	Water balance preserved, TWEL limited and skin stays soft and protected
Ceramide NP, Ceramide AP and Ceramide EOP	Maintains a healthy skin barrier, keeping the skin hydrated
Cistus Incanus Flower Extract and Gynostemma Pentaphyllum Leaf/Stem Extract	Barrier strengthening and redensifying, reduces depth of wrinkles around eyes, improves moisture, firmness elasticity and smoothness
Pinus Pinaster Extract	Natural antioxidant with strong free radical-scavenging activity
L-Arginine	Biomimetic Amino Acid that supports protein production

INSTANT IMPACT HYALURONIC ACID SERUM

Fill & Hydrate with five (5) HA's developed with white technology

WHOLESALE \$175 | 15ml

5 HA's • 3 Amino Acids • 4 peptides • 2 Stem Cells • 2 Seaweeds

Meet a new wrinkle filling, non-invasive experience. Sapelo's topically applied HA product has been proven to be as effective as injectable fillers when compared head-to-head in clinical trials. Our new HA penetrates deeper and maintains its biological activity 13 X longer than the standard HA found in other skin care products. Developed to intensely sculpt and repair animation lines and volume loss with a remarkable new molecule of HA. This innovative formula includes five (5) HA's with different molecule weights, allowing migration through the seven (7) layers of skin.

In approximately eight weeks – the serum increases moisture and provides a healthy environment for cell stimulation and expansion. The HA molecules create pockets of healthy hydration, making room for collagen to bloom. The HA has a charge that attracts other HA molecules. As the molecules accumulate, they stimulate metabolic activity in the cell, resulting in more volume. When used regularly, it expands, growing like a RESTYLANE INJECTION but without the needle. And you can fill in places you can't stick a needle – like around the eye area. The serum pushes all the right buttons for cell proliferation and collagen production.

Key Actions:

- Formulated with all the right ingredients to stimulate metabolic activity.
- Technology that drives penetration and absorption.
- Seaweed creates a non-comedogenic film to hold in hydration.

Application: Apply one drop onto areas needing instant skin improvement and hydration.

5 HYALURONIC ACIDS	BENEFITS
Hydrolyzed Hyaluronic acid #1	Tight Junction (TJ) reinforcement, in-depth moisturization, skin firmness improvement, collagen 1 synthesis
Hydrolyzed Hyaluronic acid #2	Stimulation of skin defense & cellular repair & wound healing
Sodium Hyaluronate #1	Prevents TEWL, preserves skin barrier, softens & protects outer epidermis
Sodium Acetylated Hyaluronate	Fast wrinkle reduction, skin texture improvement, nasogenian wrinkle filler, antioxidant defences booster, photo-pollution protector
Sodium Hyaluronate #2	A molecularly charged compound linked with seaweed, forming a coil that traps water.

C SKIN ACTIVATOR

C Skin is for Collagen, Vitamin C and Skin Correction

WHOLESALE \$65 | 15ml

4 Vitamin C's • 1 peptide • 2 Bioflavonoids

A powerful compound of multiple B & C vitamins, with lightening peptides that work together to catalyze collagen production, hydrate and brighten skin while breaking down old melanin. This intensive serum has multiple catalytic molecules and biologic ingredients that work together to maximize collagen activation and correct melanin imperfections. Key Actions: Vitamin C is an essential catalyst for Collagen. Zinc PCA is an essential catalyst for Vitamin C. Oleuropein is proven to prevent ageing pigment. Panthenol (ProVitamin B5) is the master builder of your body – it grabs onto the Vitamin C and supports it to become engaged with cell reproduction. These 3 ingredients depend on each other to successfully activate collagen production. Acetyl Glycyl Beta-Alanine is a hard-working peptide that has been proven to break down and remove old melanin in the skin.

Application: One small pump covers the entire face. If using retinoids at PM, please use serum in the AM.

KEY INGREDIENTS	BENEFITS
3-O ethyl ascorbic acid - Vitamin C # 1	Antioxidant/Scavenge free radicals, protects DNA from UV damage, anti-inflammatory, boosts collagen synthesis, protects ECM, inhibits tyrosinase & TRP-w activity (key enzymes responsible for UVB-induced melanogenesis). Most stable Vit C available with the highest amount of active C on the molecule. Penetrate down to where collagen is made. Completely inhibits the release of 2 inflammatory cytokines after exposure to pollution.
Ascorbyl Glucoside - Vitamin C # 2	Prevents formation of melanin by inhibiting tyrosinase at early stage. Reduction of total area of age spots by 14.2% after 2 weeks and 21.2% after 3 months. Vitamin C is inside a glucose molecule that keeps the molecule stable. Perfect for sensitive skin
Aminopropyl Ascorbyl Phosphate - Vitamin C # 3	Essential ingredient for collagen synthesis. Outperformed Ascorbic Acid and 6 other Vit C derivatives in stimulating collagen formation from 4% to 49%.
Ascorbic Acid - Vitamin C # 4	pH balancer
Acetyl Glycyl Beta-Alanine (peptide)	Brightens skin, reduces dark spots, improves skin clarity and tone, prevents pigmentation. Patented peptide with fast dermal penetration. Features genetically diminishes melanin and inhibition of melanosome transport and melanin- generating enzymes. After 56 days, the cohort experienced noticeable improvement of age spot reduction by 73.07%. Skin color brightness/ lightness with 41.64% after 56 days.
Vitamin B3 + B1	Reduces stress on the system when collagen production is stimulated
Pinus Pinaster Extract	One of the most powerful, yet natural bioflavonoids. Bioflavonoids make Vitamin C more potent – e.g. the orange – full of Vit C + bioflavonoid is the pith.

SOFTENING EMOLLIENT

WHOLESALE \$47.50 | 15ml

Our Softening Emollient is the perfect finishing touch for extremely dry and sun-damaged skin. Saturated with organic and naturally occurring essential oils for the body, it envelops the skin with a protective layer and provides an extra smooth boost to assist the key ingredients in Steps 1 and 2 to safely reach the most crucial areas deep in the dermis, where cell renewal begins.

Unlike serums, which immediately soak through the multiple layers of the skin, our emollient blankets the skin with a moisture-rich layer that protects from the evaporation of hydration. The oils are rich in multiple Vitamin E’s which are antioxidants for the skin. Finish your skin care routine with natural and organic oils for a dewy, beautiful glow. Recommended for dry climates and dry environments.

The combination of 100% fine oils, including three essential oils: clove, lemongrass and rosehip, supports and restores a healthy skin barrier function giving your complexion the immediate benefit of dewy and hydrated skin.

Application: For extra moisture, apply a small drop as a final step after all serums and creams.

KEY INGREDIENTS	BENEFITS
Eugenia Caryophyllus (Clove) Bud Oil	Skin healing
Cymbopogon Schoenanthus (Lemongrass) Oil	Skin healing
Rosa Moschata (Rose Hip)	Antioxidant, repairs sun damage
Prunus Armeniaca (Apricot) Kernel Oil	Vitamin E rich, antioxidant

SEAWEED CLEANSER

Soap Free Cleanser • Cleanse & Condition

WHOLESALE \$24 | 6oz

Healing • Aiding • Nurturing

Clean, condition and hydrate your skin in one simple step. A soap-free cleanser that delicately lifts debris from the face without stripping away the skin’s natural oils. Leaves skin soft and conditioned – the skin barrier healthy – perfectly prepped for absorbing active ingredients.

Seaweed Cleanser features a silky gel that melts into the skin upon application. The soothing, gentle formula – a soap-free system – works to increase tissue hydration while lifting debris and removing make-up.

The mild, natural seaweed-based formula hydrates and softens skin while feeding the skin with essential vitamins and minerals. Seaweed is rich in antioxidants, which work to protect from free radicals, facilitating collagen and elastin repair.

Application: Pump twice into a warm, damp face cloth.

KEY INGREDIENTS	BENEFITS
Algae	Nourishes skin with hydration, antioxidants & vitamins
Sodium N-Cocoyl L-Glutamate	Natural fatty acid found in collagen
Camellia Sinensis Leaf Extract (Green tea)	Antioxidant

SEA LAVENDER MIST & TONERDewy

Toner & Skin Refresher

WHOLESALE \$24 | 1oz

Infused with Sea Lavender Oil, this versatile product works as a toner and a skin refresher. Formulated with micro-clusters of water molecules, the mist allows for enhanced penetration of healing nutrients and hydrating humectants.

Charged with lavender, geranium, and other nutrients at a high vibrational level, to promote exceptional healing with moisturizing energies for your skin. The specially treated water has reduced surface tension which helps deliver nutrients and bio-actives while improving superior hydration.

The combination of these high-quality ingredients offers a unique mist which forms a molecular film that gives an ultra-moisturizing and regenerating effect. The mist minimizes the TEWL (Transepidermal Water Loss) and helps the active ingredients to penetrate more efficiently and deeper into the skin.

Application: Spray mist onto a cotton pad after cleansing face and gently press into skin. Or simply spray onto face any time of day for a burst of skin-saving hydration.

KEY INGREDIENTS	BENEFITS
Panthenol (Coenzyme A)	Moisturizes, anti-inflammatory, stimulates epithelialization, free radical scavenger, building block for repair
Chondrus Crispus (Seaweed)	Blended with HA for retculated polymer bundles (natural macromolecules), immediate sustained hydration, improve skin barrier function, increase cell count
Pseudoalteromonas Ferment Extract (marine extract)	Anti-aging, skin regeneration, wound healing, increase collagen and elastin, improve hydation
Proline (amino acid)	Repairs skin & Improves collagen concentration
Alanine (amino acid)	Improved hydration
Serine (amino acid)	Immune system health

ANTI-AGING ENZYME MASK

WHOLESALE \$47.50 | 2oz

Refine and restore your skin with Sapelo’s Anti-Aging Enzyme Mask. Our face mask provides a gentle path to skin cell replication that safely renews your complexion’s radiance and hydration while exfoliating surface cells. Rich in all-natural, plant-based enzymes and botanical extracts that provide a safe alternative to glycolic and retinoic acids. Southern honey works as a vehicle to naturally smooth the mask over skin for effortless application. The result is smooth and radiant skin.

Developed using sophisticated molecular screening techniques, the yeast peptide in our Anti-Aging Enzyme Mask initiates gentle skin resurfacing and actively refines and restores skin texture and radiance. Studies of this ingredient resulted in the same exfoliation effectiveness as glycolic acid – yet gentle with no injury to your skin. A botanical blend of apricot, wild cherry, and blackthorn extracts are rich in mandelic acid, a naturally-occurring, yet highly effective, ingredient that provides skin polishing results. Mandelic acid is known for its anti-aging and re-texturizing properties by increasing circulation and hydration and supporting cell turnover.

Application: Apply to clean face and neck twice a week, allowing at least 15-20 minutes for absorption.

KEY INGREDIENTS	BENEFITS
Pumpkin Enzymes	Gently exfoliate by digesting old skin cells with no burning or injury to skin.
Yeast Extract	Powerful yeast peptide and soy-derived amino acid complex that gently loosens coarse, keratinized cells. It promotes skin renewal, stimulation of new, younger cells, and skin brightening with noticeable increased luminosity.
Prunus Serotina (Wild Cherry) Bark Extract & Prunus Spinosa Wood Extract	Blend of apricot, wild cherry and blackthorn extracts rich in mandelic acid, a naturally occurring, yet highly effective, ingredient that provides skin polishing results.

MILK & HONEY HYDRATING MASK

WHOLESALE \$37.50 | 2oz

Dramatically improve face hydration while calming your skin with rich Southern honey and nourishing milk peptides. Collagen boosting milk peptides push hydration, reduce wrinkles and increase firmness and skin thickness. The natural honey gently clarifies and saturates your complexion.

The masks creates a peaceful environment for your skin that eases hormonal skin disturbances and encourages it to heal, revealing plumped hydrated skin.

Application: Apply to clean face and neck, allowing 20 - 30 minutes for absorption. Gently remove with warm cloth and rinse with warm water.

KEY INGREDIENTS	BENEFITS
Pseudoalteromonas Ferment Extract (marine extract)	Anti-aging, skin regeneration, wound healing, increase collagen and elastin, improve hydration.
Proline, Alanine, Serine	Essential ceramides for skin barrier function..
Whey Protein	Regenerates mature skin, rganizes wound healing by stimulation of Extra Cellular Matrix, collagen booster.
Chondras Crispus Extract	Blended with HA for reticulated polymer bundles (natural macromolecules), immediate sustained hydration, improve skin barrier function, increase cell count.
