

LED WALL PACK

DESCRIPTION

ML-WM-5093

LED Full Cut-off Wallpack provides efficient lighting to where you needed most. It is Dark Sky friendly and provides exceptional lumens per watt. It has a Type III Forward throw directing light for maximum coverage. With industrial grade polycarbonate lens, this fixture is great for schools, parks, correctional facilities, and other public areas.

Construction

► Industrial grade die-cast aluminum alloy body is tough on the elements and allow the luminare to withstand the harshest of conditions.

Optical System

► Next generation LEDs combined with the best-in-class UV stablized commercial grade polycarbonate lens provide the most efficient lighting system. Optical system is engineered to provide professional grade light distribution and uniformity.

Electrical

► Long lasting LED coupled with UL Listed Drivers provide an electrical system that will stand the test of time. Universal voltage allow the luminare to be used in multi-faceted environments.

Finish

► Luminaire is electrostatically coated with UV stabilized powder coat providing years of worry-free service.

Certification

► cUL and UL Listed.Listed for Wet Locations. DLC Premium certified.

LED WALL PACK

Product Description

Door Frame

The door frame is designed with the installer in mind. It has a simple to use hinge access, allowing installers to be hands-free when entering electrical compartment. This saves time and money.

Integrated Heatsink

Integrated cooling fin provides excellent thermal dissipation. This design allows the fixture to have extremely long lifetime hours.

Proprietary Optical Control Specifically designed lens for freedom of layout design without any restraint. These optics are engineered for maximum light output.

Performance Data

* Lumen and Efficacy shows the highest wattage at 5000K

Model NO.	System Watts	Lumens	LPW
ML-WM-5093-41W-4K-T3-UV-BZ	41W	5539 lm**	135 lm/w
ML-WM-5093-63W-4K-T3-UV-BZ	63W	9044 lm**	143 lm/w
ML-WM-5093-76W-4K-T3-UV-BZ	76W	10420 lm**	137 lm/w

* DISCLAIMER: This test report was produced in accordance with IES LM-79 photometric testing protocol for luminaires, using a single representative test fixture. Actual production units may vary from the values reported here by up to ±10%.
