

Polyethylene DRUM BUNDS

These are the most versatile and commonly used spill pallets. Store drums on this drum bund with or without a wooden pallet to capture leaks, drips and spills.

FEATURES:

- Chemical resistant polyethylene construction stands up to the harshest environments & chemicals.
- Unit is forkliftable even when loaded with four 205L drums. Two way entry.
- Large flat deck allows smaller containers to be stored on the unit (16 x 20L drums on the deck).
- Unit has three drain plugs in the sump for easy decanting of spilt liquid.
- Improves productivity by providing a convenient, mobile bunded option for drums.
- Keeps personnel safe from accidental slips.
- Keeps spilt liquids from contaminating factory floors, inventory or stormwater drains.
- Reduces clean-up costs by providing easily retrievable spills.
- Helps organise your drum storage.
- Segregate liquids for easy identification.
- Makes handling drums safer and easier.

PRODUCT RANGE:

Code	Description	Capacity (litres)	Material	Weight (kg)	Dimensions (mm)
