

## 1000 SERIES REFUELLING NOZZLE

Item code: BN1000M

### 600lpm to 1000lpm (158gpm to 264gpm)

Our 1000 Series refuelling nozzles allow your equipment filling speeds to be maximised.

Considered to be the pinnacle in Dry Break, automatic shut-off hardware, these durable nozzles allow fuelling process times to be reduced, enabling significant productivity gains.

#### FEATURES:

- 1000 lpm (264 gpm) diesel refuelling.
- Nozzles work with Banlaw receivers and vents to automatically shut off refuelling when the tank is full.
- Dependable ball locking mechanism ensures that nozzles do not 'fly off'.
- Dry Break connections avoid fuel spills and sprays, at industry-best refuelling speeds.
- All steel mating parts, and fully repairable; with regular maintenance nozzles can last for years.
- Ergonomic design for quick and easy manual handling.
- Range of factory spring settings so that nozzles and receivers are matched to work optimally with your specific equipment set-up.
- Highly reliable – suitable for robotic refuelling.
- Safe, automated shut-off when the fuel tank is full.

#### VARIANTS:

- Standard (in a range of spring settings)
- Bulk Fill (no auto-shutoff)
- Integrated Auto ID technology (FuelTrack)
- Cold Temp / Arctic Range also available.
