

## 800 SERIES DRY BREAK RECEIVERS

Banlaw Dry Break Receivers deliver industry leading performance, safety & durability.

We offer a variety of Dry Break receiver configurations to suit various applications, including our 23 series which is compatible with refuelling nozzles supplied by other OEM's.

Our receivers are manufactured from the highest quality materials, including stainless steel, to ensure they withstand harsh everyday treatment. This makes them less-prone to snapping-off or leaking than receivers made from softer materials.

Part Number	Product Description	Shipping Specs	Tech Specs	Compatible Nozzle	Items Included
