BREATHER T.R.A.P. 1" BSP MALE

Bulk Tank Filtration + Moisture Protection

The Donaldson T.R.A.P.™ breather reduces the risk of dust and moisture entering storage tanks from the vent while allowing high flow rates of fluid into and out of the tank.

APPLICATION:

- Medium Tanks.
- 'On farm' fuel tanks.
- Large industrial gear reducers.
- Hydraulic reservoirs with linear actuators.
- Service truck lube and fuel compartments.

OPTIONS:
