

XD60/70/80 POWERED HOSE REELS

The direct-drive motor options include hydraulic, pneumatic and electric for air, water, petroleum- and synthetic-based oil, grease, diesel fuel dispense and waste oil evacuation applications.

Ideal for rugged indoor and outdoor use in heavy-duty truck dealerships, fleet maintenance, mining maintenance, public works garages, construction vehicle maintenance, agriculture and service trucks.

FEATURES:

- Safe, Reliable Direct Drive and Gear Motors - Drive unit is clean and lubricated for life. No need to worry about greasy, exposed drive chains that need maintenance.
- Easily change the inlet and motor direction to give you the option of a right or left hand flow orientation.
- Heavy-duty Welded Spool - Built to handle the weight of heavy hoses, designed to surround and protect the drive unit from the elements for longer lasting, safer operation.
- Rugged and Durable Body - Heavy-duty one piece welded frame is engineered to flex under extreme operating conditions and is stronger than bolted frames that can loosen with use. Individually painted and powder coated components have superior corrosion resistance over assembled and painted products.
