

## XDV20 CONTROL VALVES

Graco's XDV20 control valves are designed for standard and heavy-duty applications.

Like all Graco equipment, our non-metered control valves are built to last. The control valve is compatible with a wide range of nozzles and fluid extensions and is capable of pumping oil up to 20 gpm (75.7 lpm).

Use with petroleum- and synthetic-based oils (motor, gear and ATF) and antifreeze.

### FEATURES:

- Lock-on/Lock-off trigger allows hands free operation.
- High-performance valves with high-flow capabilities.
- Long-lasting, high-quality valves built from the finest components.
- Increase productivity with our high flow rate valves.
- Durable construction and design ensures a long life.

### XDV20 CONTROL VALVE RANGE:

Fluid	Max Working Pressure	Max Flow Rate	Intended Use	Extension	Inlet inch (mm)	Part Number
Oil Anti-freeze	1,500 psi (103.4 bar)	20 gpm (76 lpm)	Indoor/Outdoor	Rigid	1/2 (13) NPT	247718 – NSA
					3/4 (19) NPT	247722 – STK
				Flex	1/2 (13) NPT	247721 – STK
					3/4 (19) NPT	247723 – STK

### ACCESSORIES

255793	Quick-close high flow nozzle for oil, ATF and anti-freeze; 7/8-14 straight thread O-ring boss inlet (XDV20 only).
255859	Flex extension with quick-close nozzle (255793) for XDV20.
255921	Rigid extension with quick-close nozzle (255793) for XDV20.
