

PETRO COLLAPSIBLE BUND RANGE

900gsm thickness Orange PVC

Item code: CBES

Collapsible Bunds are a great, portable, and robust way to help you store your drums, whether it's on-site, or in your warehouse. These bunds can be driven over by a forklift to drop a pallet, once the forklift has retreated from the bund, it can be brought back up to a standing position. All collapsible bunds can be custom made to suit any purpose.

FEATURES:

- Internal batons are already in place. Simply stand the wall up vertically.
 - Easy to carry and compact to transport.
 - Supplied in a carry bag with a handy velcro opening and strong handles.
 - Setup instructions conveniently placed on the outside of the bag in a specially designed see-through pocket.
 - Made from heavy duty PVC (900 gsm) in bright, safety orange. Can also be supplied in Coolguard or XR5 material for additional chemical or abrasion resistance.
 - 350mm high walls allows easy access to the bund when using it as a decontamination station.
 - Use weights or peg down the external strip to ensure walls stay erect in windy conditions.
- Optional:**
- Ground Sheet: Protects the underside of the bund.
 - Floor Protector: Sits inside the bund to protect the bund floor.
 - Neoprene Floor Protector: Provides bund floor protection for point loading, heavy or sharp objects.
