

c/w Fluids Management System

12V DC CUBE STYLE PUMP

Item code: PUMP-FMS-F0059413A-CATA

Diesel fuel dispensers with multi-user meter.
 A compact diesel-fuel dispenser for private use that is easy to install, ensures fast and precise dispensing and can only be used by qualified personnel.
 Dedicated software permits exporting data to a PC.
 The compact body contains the nozzle holder, the pump and the meter.
 The electronic unit is able to control up to 50 users, including by means of a magnetic key, and permits dispensing with preselection.

Data can be downloaded into a PC both by means of the magnetic key and by cable connection.
 CUBE 70 MC can be fitted to a wall, directly on the tank by means of the quick coupling or on a column.
 In terms of low running costs, compact dimensions and flexibility, together with all-round efficiency, CUBE 70 MC is a truly unique dispenser.

PERFORMANCE:

- Flow rates from 70 l/min.
- Pre-selected dispensing.
- Accuracy: \pm -0.5 % within flow rate range.
- Local memory capable of storing data for the last 200 deliveries.
- Can accept vehicle registration numbers and odometer readings.
- Records date and time of dispensing.
- Magnetic keys for user identification.

SPECIFICATIONS:

- Vane pump with built-in bypass.
- Induction motor with overheating protection.
- Mesh filter in the pump intake.
- Pulsar meter with oval gears.
- Automatic nozzle with swivel joint and 4-metre diesel fuel tube.
- Electronic control unit with display and keypad for entering code numbers.
- Magnetic key for user identification (optional).
- Cable connection to a PC up to 800m away (optional).
