PIUSI

FILTER PARTICULATE

Item code: F0777200A

The Piusi Fuel Filter can be fitted to both the suction and delivery systems to ensure that clean, particle free fuel is dispensed. This oil and diesel filter has a spin on cartridge for easy installation and replacement.

When a flow rate reduction is observed, these fuel filters for diesel and oil should be replaced to ensure that the filtration of the fuel is maintained.

FEATURES:

- Includes 1 x Filter Head and 1 x Filter Element.
- Filter spin on style.
- Suitable for diesel, bio-diesel, oil and petrol.
- Operating pressure 12 bar max.
- 10 um DN25 (1").
- Maximum flow rate of 70Lpm.
- 1" F BSP Flanged Inlet/Outlet.

AVAILABLE:

Replacement Filter Element
Particulate – Code: F00611000
