SB325 AUTOMATIC NOZZLE

Item code: SB325-CATA

The new SB325 automatic nozzle features a innovative technopolymer casing, break-away system, and a stainless steel spout. Safety is guaranteed by the break-away system.

- This system will prevent a potential mis-fill when the SB325 mis-filling spout is used in conjunction with the magnet in the opening of the tank.
- The Piusi Magnetic Adaptor allows the SB325 mis-filling spout to be used with all tanks.
- Designed in compliance with International Standards ISO/ FDIS 2241-4:2009 concerning AdBlue® dispensing nozzles.
