## 95L FUEL & OIL SPILL KIT

Item code: SKHLT

A heavy duty weatherproof carry bag with a range of components. For Oil, fuel, diesel, petrol, solvents & other petroleum products in outdoor areas around mine sites, drilling rigs & truck stops. Components are designed for harsh conditions.

### FEATURES:

- Portable kit designed for smaller regular spills.
- Contains a variety of Envirosorb™ premium polypropylene oil & fuel only absorbents and organic Global Peat ground and floor absorbent.
- Envirosorb™ is able to recover up to 20 times its own weight in oil and is highly water repellent (hydrophobic).
- Global Peat is highly oil absorbent (approximately 5 times its own weight in oil), light weight and easy to use.
- Spill Kit includes label, laminated re-order form & operating instructions.
- UV stabilised and colour coded labels are fitted to the front of the bag kit.
- Spill Kit can be customised by adding/removing/swapping components.
- Spill Kit is supplied in a highly visible 'safety yellow' water resistant carry bag.
- Velcro closure allows easy opening and closing with handles included for carrying or hanging on a wall.
- Shipping weight: 15 kg.
- Shipping dimensions: 84cm x 88cm x 35cm.
