

TCS REGISTER OPTIONS

MECHANICAL REGISTRATION:

Model	Description	Image
7887 Register	The 7887 meter register totalizes and displays high speed deliveries and transactions in large, 3/4" easy-to-read figures. Displays a 5 digit resettable totalizer and 8 digit non-resettable totalizer.	
7888 Ticket Printer	Meter register and ticket printer combine to produce clean, detailed printed records of high-speed fluid deliveries and transactions.	
7889 Preset Counter	The meter register and preset counter provide automatic preset batch control. The control function will shut-off (2-stage) when predetermined quantity is delivered.	
Microswitch Cutoff	The micro switch assembly has two double chamber internal switches to provide full flow, low flow and off control for the 7889 preset counters.	
Pulse Transmitters	The dry reed (1:1 or 10:1) and solid state (100:1) pulse transmitters provide fast and accurate signaling for remote indication, totalizing and data monitoring systems.	
Swivels	This swivel adaptor allows the register to be rotated to any desired angle before delivery or while meter is operating.	
Tray Switch	Tray switch prevents a pump or valve from turning on until the register counter has been reset. Also used for resetting external digital displays after a transaction is finalised.
